# SECTION I: State of Wisconsin Export Certificates and Export Services

## A. Food Safety and Inspection

The Food Safety & Inspection Bureau in the Division of Food Safety offers certificates for food products intended for human consumption produced in food processing plants and dairy plants. A Certificate of Free Sale, Sanitary, Purity and Health is required to export food products. The Division of Food Safety is the official licensing agency for all food operations in the State of Wisconsin and issues notarized certificates attesting to the licensing, inspection and standing of these operations.

The request for certificates must be in writing. Requests can be made only through our website at [http://datcpservices.wisconsin.gov/Certificate\\_of\\_Free\\_Sale/index.aspx?AspxAutoDetectCookieSupport=](http://datcpservices.wisconsin.gov/Certificate_of_Free_Sale/index.aspx?AspxAutoDetectCookieSupport=)

If we have furnished you with certificates in the past, include a copy with any relevant changes. This will ensure that the new set of certificates will be exactly what is required.

Wisconsin does not license nor inspect nutritional supplement manufacturers. The FDA regulates those products; please see <http://www.fda.gov/> for more information.

Provide the following information in your request:

1. Name and address of the company that produced the product.
2. License number of the producing plant(s). (Dairy Plant, Food Processor, Etc.)
3. Contact person and telephone number of the individual requesting the certificates.
4. The number of sets of certificates. (1 set consists of 4 identical original documents)
5. Address to send completed certificates to.

<p><b>CERTIFICATES OFFERED</b></p> <ul style="list-style-type: none"><li>• Certificate of Free Sale, Sanitary, Purity, Origin and Health</li></ul> <p>Note: The Food Safety Bureau does not issue Certificates of Free Sale for processed meat such as sausage or bacon. For those products, refer to Section I.C. Division of Agricultural Development</p> <p><b>REGULAR SERVICE</b> – processed within 3 business days; sent via first-class mail only. The fee for each set of certificates using Regular Service is \$65.00.</p> <p><b>SPECIAL SERVICE</b> –processed within 1 business day; sent via Fed Ex or UPS.</p> <p>You must provide an account number and a copy of the waybill. The fee for each set of certificates using Special Service is \$100.00.</p>	<p><b>CONTACT</b></p> <p>Dept. of Agriculture, Trade and Consumer Protection Food Safety &amp; Inspection Bureau, Division of Food Safety 2811 Agriculture Drive Madison, WI 53718</p> <p>Email: <a href="mailto:DATCPFreeSaleCertificate@wisconsin.gov">DATCPFreeSaleCertificate@wisconsin.gov</a> Tel: 608-224-4712</p>
<p>Note: All certificates for meat and pizza must be requested directly from the USDA at <a href="http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products">http://www.fsis.usda.gov/wps/portal/fsis/topics/international-affairs/exporting-products</a>. This website facilitates food export certification by providing updated information on international certification requirements, competent US state and federal authorities who issue food export certificates and a standardized format for state-issued certificates.</p>	

## B. Division of Agricultural Resource Management Plant Industry Bureau

The Plant Industry Bureau offers inspections and certificates for plants, plant products and honeybees (apiary) intended for export. All certificates are processed within 10 business days of receipt barring any regulatory concerns or import requirements.

## Ginseng Certificates

In late 2009, the ginseng dealer, and ginseng grower registration packets were revised so that growers and dealers submit different forms. Previously, dealers and growers used the same form. The out-of-state dealer registration and certificate have been eliminated. Out of state dealers will use the dealer forms. Visit [https://datcp.wi.gov/Pages/Licenses\\_Permits/GinsengRegistration.aspx](https://datcp.wi.gov/Pages/Licenses_Permits/GinsengRegistration.aspx) for more information.

**Ginseng Dealer Certificate:** Annual certificate used for selling cultivated ginseng purchased from a registered grower or dealer

# SECTION II: Federal Export Certificates (USDA-APHIS, USDA-FSIS, United States Customs)

## A. Live Animals & Animal Products (including dairy products)

The Wisconsin Department of Agriculture, Trade and Consumer Protection’s Division of Animal Health governs movement of animals and animal origin products into and from Wisconsin to international destinations. Health papers are filed through the state offices of [USDA-APHIS Veterinary Services](#).

APHIS serves to facilitate safe international trade, monitor the health of animals presented at the border, and regulate the import and export of animals, animal products, and biologicals. Other products requiring certificates include hatching eggs, certain dairy products, animal and egg based research and inoculants and animal cellular cultures. **Companies should always refer to the [APHIS Import/Export website](#) for country-specific documentation requirements for their particular product.**

### FDA Certificate Descriptions

- **Certificate to Foreign Government:** For the export of human drugs and biologics, animal drugs and devices that may be legally marketed in the United States.
- **Certificate of Exportability:** For the export of human drugs and biologics, animal drugs, and devices that may not be legally marketed in the United States but meet the requirements of sections 801(e) or 802 of the Act and may be legally exported. (CBER, CDRH, and CVM)
- **Health Certificates for Food/Feed:** Currently required primarily by the European Union (EU), are usually consignment-specific and often contain language pertaining to "compliance" of the particular product/consignment with foreign regulations.
- **Specified Risk Materials of Bovine, Ovine & Caprine Origin Certificate:** Used for the export of gelatin that can be legally marketed in the United States. These certificates address concerns on raw material in regard to transmissible spongiform encephalopathies. (CFSAN)
- **Certificate of Pharmaceutical Product:** Conforms to the format established by the World Health Organization (WHO) and is intended for use by the importing country when considering whether to license the product in question for sale in that country. (CBER, CDER, and CVM)
- **Non-Clinical Research Use only Certificate:** For the export of a product, material, or component, for non-clinical research use only, that is not intended for human use and which may be marketed in, and legally exported from the United States.
- **Compliance with Good Manufacturing Practices:** FDA performs inspections for compliance with cGMP regulations for drug, biologic, medical devices, human food and animal feed manufacturers that are registered and listed with the Agency. FDA bases its attestation of compliance with cGMP regulations on the manufacturer's most recent FDA inspection and other available information.

## D. Fruits, Vegetables & Grains

Depending on the export destination and product, grains and fresh or frozen fruits, and vegetables might require an inspection certificate prior to export. Certificates are issued by a variety of federal agencies including USDA Plant Protection & Quarantine (PPQ) Section of APHIS, Agricultural Marketing Service and the Federal Grain Inspection Service (FGIS).

## E. All Products – Certificate of Origin

The Customs and Border Protection within the Department of Homeland Security regulates movement of all goods into and out of the United States. A certificate of Origin identifies who has produced described goods and in what country. Certificates of Origin are used to determine tariffs. **The exporter generates the Certificate of Origin** and maintains records to support representation of goods as described in the document. Certificate of Origin requirements are stated on your customer's import license as determined by the importing country and the provisions of trade agreements with the United States.

## F. Wood Products and Packaging

Treating wood properly and meeting the International Standards for Phytosanitary Measures (ISPM 15) are essential to reduce environmental and economic harm associated with the introduction of invasive species to a country. All solid wood components of the wood packaging materials (both hardwood and softwood species of the wood) need to be treated with **heat treatment** and/or **fumigation** depending on the destination country. Items such as plywood, particleboard, oriented strand board, and veneer are exempt from the standard. Wisconsin companies can ensure their wood packaging materials meet the ISPM 15 standards by having the wood treated at any one of many Wisconsin-based certified facilities. Companies with questions about exporting their products can contact a member of the International Agribusiness Center.

## B. Manufacturing Processing Certification Resources

**Safe Feed, Safe Food** - <http://www.safefeedsafefood.org>

Governed by: American Feed Industry Association

Safe Feed/Safe Food Certification Program is a voluntary, third-party-certified initiative designed for feed mills and feed- and ingredient-related facilities in the United States and Canada.

### Hazard Analysis & Critical Control Points (HACCP)

<http://www.fda.gov/Food/GuidanceRegulation/HACCP/>

Governed by: U.S. Food and Drug Administration

HACCP addresses food safety through the analysis and control of hazards throughout the production process to the consumption of the finished product.

### Global Food Safety Initiative - <http://www.mygfsi.com>

Coordinated by: The Consumer Goods Forum

The Global Food Safety Initiative was set up to pursue improvement in our food safety systems. Harmonizing global food safety standards increases transparency and efficiency in the supply chain, cuts costs and provides assurance of safe food for consumers worldwide.

## C. Radiation-Free Certificate

Some importing countries may request a Radiation Free Certificate. This can be obtained through the United States Department of Agriculture (USDA).
