A. Food Safety and Inspection

The Food Safety & Inspection Bureau in the Division of Food Safety offers certificates for food products intended for human consumption produced in food processing plants and dairy plants.

A Certificate of Free Sale, Sanitary, Purity and Health is required to export food products. The Division of Food Safety is the official licensing agency for all food operations in the State of Wisconsin and issues notarized certificates attesting to the licensing, inspection and standing of these operations.

The request for certificates must be in writing. Requests can be made only through our website at

http://datcp.wi.gov/Business/Exports/Certificate_of_Free_Sale/index.aspx

If we have furnished you with certificates in the past, include a copy with any relevant changes. This will ensure that the new set of certificates will be exactly what is required.

Provide the following information in your request:

- a. Name and address of the company that produced the product.
- b. License number of the producing plant(s). (Dairy Plant, Food Processor, Etc.)
- c. Contact person and telephone number of the individual requesting the certificates.
- d. The number of sets of certificates. (1 set consists of 4 identical original documents)
- e. Address to send completed certificates to.

E. All Products – Certificate of Origin

The United States Department of the Treasury, United States Customs Service regulates movement of all goods into and out of the United States. A certificate of Origin identifies who has produced described goods and in what country. Certificates of Origin are used to determine tariffs. **The exporter generates the Certificate of Origin** and maintains records to support representation of goods as described in the document. Certificate of Origin requirements are stated on your customer's import license as determined by the importing country and the provisions of trade agreements with the United States.

F. Wood Products and Packaging

Proper wood treatment and meeting the International Standards for Phytosanitary Measures (ISPM 15) is essential to reduce environmental and economic harm associated with the introduction of invasive species to a country. All solid wood components of the wood packaging materials (both hardwood and softwood species of the wood) need to be treated with **heat treatment** and/or **fumigation** depending on the destination country. Items such as plywood, particleboard, oriented strand board, and veneer are exempt from the standard. Wisconsin companies can ensure their wood packaging materials meet the ISPM 15 standards by having the wood treated at any one of many Wisconsin-based certified facilities. Companies with questions about exporting their products can contact a member of the Wisconsin International Trade Team.
