DBA Name: If you, as an Individual, Corporation or LLC, sometimes or generally conduct your business under a name which you have not formally constituted as a separate legal entity, then you are considered to be "doing business as" or using a trade name of "_____". Please enter all such designations that you use for this feed lot business, not names you are using for other businesses.

Legal Entity Type: If your legal entity is anything other than individual, we may ask you to submit proof of the existence of the legal entity. If you operate as a general partnership or trust, call us to see what to submit. If you are requesting a new permit, we will meet with you to discuss program requirements shortly after you receive your permit.

Business Location: We must have the location information for the address at which you transact the feed lot business. You may NOT list more than one location for conducting business under a feed lot permit. Each location requires a separate permit. Be sure to include contact names and phone numbers.

Premises Registration Code: Because you keep livestock on your property (even for short periods of time) related to your feed lot business, a Premises Registration Code is required. ALL feed lots must have a Premises Code. If you currently have a Premises Code for the same address because of livestock you keep at that address, you may use the same Premises Code. You must renew any Premises Code applicable to your business location every 3 years. For Premises Registration Code information, call 888-808-1910 or visit the Wisconsin Livestock Identification Consortium (WLIC) website: <http://www.wiid.org/>

Fees: There are no late fees for new licenses.

Total your fees. **Make check payable to WDATCP.**

Application Signature: The application must be signed only by an authorized person. An authorized person is an individual (sole proprietor) or a person whose name appears as an officer, partner, trustee, manager or member (if authorized by the entity's incorporation/formation document or bylaws). (2) The department shall promulgate rules defining the term “contagious or infectious diseases” as used in this chapter.

History: 1979 c. 129 s. 11; 1981 c. 20; 1983 a. 189; 1989 a. 277; 1995 a. 79, 450; 2001 a. 56 ss. 119 to 122, 154.

95.01 Administration of drugs to horses. (1) No person may administer a drug to a horse, either internally or externally, for the purpose of altering the performance of the horse in a horse pulling contest.

(2) Persons in charge of a horse pulling contest may require as a condition of participation in the contest that the exhibitor submit the exhibitor’s horse for examination by a licensed veterinarian to determine the presence of drugs under sub. (1).

History: 1973 c. 191; 1993 a. 492.

95.10 Feeding garbage to swine. (1) Beginning July 1, 1968, it is unlawful for any person to feed public or commercial garbage to swine, or to deposit or receive such garbage on any premises where swine are kept, and no swine having fed on such garbage may be sold or removed from the premises.

(3) “Public or commercial garbage” as used in this section means putrescible animal or vegetable wastes containing animal parts, resulting from the handling, preparation, processing, cooking or consumption of food and which is collected from any source, and includes dead animals as defined in s. 95.72 (1) (c). History: 1981 c. 66, 291; 1981 c. 391 s. 210; 2001 a. 56.

95.11 Livestock branding. (1) DEFINITIONS. As used in this section:

(a) “Brand” means an identification mark which is burned, tattooed or otherwise permanently marked onto livestock in accordance with department rules. A brand shall consist of a symbol, letter, or combinations of symbols, letters or numbers in a specific location but does not include ear notches or similar disfigurement, a mark which is solely a numeral or a mark required by law for official identification in disease control programs.

(b) “Livestock” means cattle and horses.

(2) **ADOPTION AND USE.** Any person may adopt an exclusive brand by recording such brand under sub. (3).

(3) **RECORDING; FEES.** (a) Any person desiring to adopt any brand, not the recorded brand of another person, shall forward to the department a facsimile of the desired brand, together with a written application and a recording fee. Upon receipt the department shall record the brand, unless the brand is of record as that of some other person or conflicts with the recorded brand of any person. If the brand does not qualify for recording, or there is a conflict between applications received on the same date, the facsimile and fee shall be returned to the applicant. If the brand is accepted, the ownership thereof shall vest from the date of filing.

(b) In 1984 and every 10th year thereafter, every owner of a brand shall rerecord the brand according to department rules. At the expiration of each recording period the department shall notify every owner of a brand at the owner’s address of record that the brand has not been rerecorded and that the brand must be rerecorded within 90 days. Failure to rerecord the brand is an abandonment of the brand, and it can be recorded by another applicant thereafter.

(c) Any recorded brand is subject to transfer as personal property. Instruments evidencing transfer of a brand shall be recorded by the department upon payment of a transfer fee.

(d) The fee for initial recording is \$20, and for rerecording and transfer is \$10. When any brand is recorded, the owner is entitled to one certified copy of the recorded brand. Additional certified copies may be obtained upon the payment of \$2 for each copy.

(4) **SUIT BY OWNER.** An owner of a recorded brand may sue for injunctive relief and damages arising from an unauthorized use of the owner’s brand on livestock and a judgment in the owner’s favor may include costs and reasonable attorney fees.

History: 1973 c. 239; 1993 a. 490, 492; 1995 a. 225.

95.12 False pedigree. 95.13 Misrepresenting breed of domestic animal. No person shall sell or barter or cause to be sold or bartered any domestic animal and represent, or cause to be represented that such domestic animal is a pure bred domestic animal, when in fact such domestic animal is not registered, or entitled to registry, in any pure breed registry maintained for such domestic animals; nor shall any person knowingly utter, pass or deliver to any person as

true, any false, or altered pedigree; nor shall any person refuse to deliver proper certificate of registry for any domestic animal sold or transferred by the person, having represented at the time of sale or transfer, and as an inducement thereto, that such domestic animal was registered and that the person possessed and would deliver a certificate of registry as evidence thereof, or that such domestic animal was entitled to registry and that the person would secure such certificate and deliver the same.

History: 1993 a. 492; 2001 a. 56.

95.14 Corporations to improve livestock. (1) Three or more adult persons of this state may form a corporation, without capital stock, to be managed and directed as herein provided, for the purpose of improving the breeding of livestock by such means and methods as may be deemed most advisable, and to receive and manage contributions therefor made from time to time by way of gifts, deed, devise, bequest or otherwise, and to expend the income thereof for the purpose of the corporation. The work of any such corporation shall be entirely educational and designed by practical work with the breeder upon the farm to result in a better understanding and practical application of the scientific and technical principles taught in agricultural colleges and experiment stations, so as to effect the greatest possible coordination between the science and the art or practice of breeding, but such work shall not be merged with the work of any educational institution. Any corporation organized hereunder shall have authority to pay all necessary expenses properly incurred in carrying out the purposes of the corporation, including compensation to employees and to directors for services actually rendered in conducting the affairs of the corporation, but no pecuniary profit shall ever be paid to any incorporator or director.

(2) Any corporation organized under this section shall be managed and directed by a self-perpetuating board of directors of 5 members, consisting of the dean of the College of Agricultural and Life Sciences of the University of Wisconsin–Madison, who shall be permanent chairperson of the board, and 4 others to be appointed in the first instance by the incorporators; at least 3 of the 5 members shall always be representative livestock breeders of the state. If the dean of the College of Agricultural and Life Sciences fails to act as a member of the board by reason of refusal, disability, or vacancy in the chair of the dean, the remaining members of the board shall appoint a representative livestock breeder to act in his or her place on the board until the time as such refusal, disability, or vacancy in the chair ceases to exist. Whenever the dean of the College of Agricultural and Life Sciences becomes a member of the board of directors after any such interim, the dean shall automatically become chairperson of the board.

(3) The term of office of all members of the board, except the permanent chairperson, shall expire one each year by lot. The remaining members shall elect a member to succeed the person whose term shall have thus expired. Vacancies occurring during the year may be filled at once by the remaining members.

(4) Any such corporation shall have the general powers of other corporations and its articles of organization shall conform to s. 181.0202 with such modifications as this section requires.

History: 1973 c. 335 s. 12; 1979 c. 32; 1993 a. 184; 1997 a. 79; 2001 a. 103.

95.17 Animal diseases; cooperation with United States. Whenever it is determined by the department and the state constitutional officers that it is necessary to combat dangerous diseases in animals in this state in cooperation with the U.S. department of agriculture and to destroy animals affected with or which have been exposed to any such disease or to destroy property in the disinfection of the premises or to do any other act or incur any other expense reasonably necessary in suppressing or combating such disease, the department may accept, on behalf of the state, the rules and regulations prepared by the U.S. department of agriculture under authority of an act of congress relating to the suppression of any such disease and cooperate with the authorities of the U.S. in the enforcement of their provisions; or it may follow such procedure as to inspection, vaccination, con-

demnation, appraisal, disinfection and other acts reasonably necessary in the suppression of such diseases as may be agreed upon and adopted by the department and the state constitutional officers with the representatives of the U.S. department of agriculture. Within the amount which may, subsequent to March 23, 1915, be appropriated for this purpose, the state shall pay such proportion of the expense incurred in suppressing or combating any such disease and in compensating owners of animals slaughtered under this section as shall be determined by and mutually agreed upon with the U.S. department of agriculture.

History: 1975 c. 308; 2001 a. 56.

95.18 Animals in transit. Animals in transit in the state are subject to all the provisions of law relating to contagious or infectious diseases of animals, and to the regulations and orders of the department.

Cross-reference: See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

95.19 Diseased animals. (1) DEFINITIONS. In this section, “knowingly” means that the actor believes that the specified fact exists.

(2) PROHIBITIONS. No person may do any of the following:

(a) Import, sell, transport or exhibit an animal that is exposed to a contagious or infectious disease, except as provided in sub. (3) (a).

(b) Import, sell, transport or exhibit an animal that is infected with a contagious or infectious disease, except as provided in sub. (3) (a).

(c) Knowingly conceal that an animal that is imported, sold, transported or exhibited has been exposed to or infected with a contagious or infectious disease.

(d) Knowingly misrepresent that an animal has not been exposed to or infected with a contagious or infectious disease.

(e) Knowingly permit an animal that has been exposed to or infected with a contagious or infectious disease to commingle with other animals under conditions that may cause the disease to spread to an animal owned by another person.

(3) RULE MAKING. The department may promulgate rules:

(a) Authorizing the transport under a department permit of an animal exposed to or infected with a contagious or infectious disease for slaughter or other purposes prescribed by the department.

(b) Specifying those contagious or infectious diseases to which the prohibitions of sub. (2), and the rules promulgated under par. (a), apply.

(4) DAMAGES. A person who violates this section is liable to any person injured for damages sustained as a result of the violation.

History: 1989 a. 277.

Cross-reference: See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

Use of the phrase “any person injured” does not show that the legislature intended to allow recovery under this section only when a violation of this section causes personal injuries, as opposed to economic losses. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07–1964.

This section specifically gives the department the authority to specify which contagious or infectious diseases can create liability under sub. (2) (a) to (e), which it has done. The two claims found in sub. (2) (a) and (b) are strict liability statutes that are restricted by rule to specified diseases. Sub. (2) (c) to (e) prohibit 3 different kinds of knowing conduct. By rule, liability under sub. (2) (c) to (e) may be based on any disease that is either contagious or infectious. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07–1964.

95.195 Diseases; implied warranty in sale of animals.

(1) DEFINITION. In this section, “covered disease” means a disease that the department specifies under sub. (4) (a) is covered by this section.

(2) WARRANTY. Except as provided in sub. (3), in every contract for the sale of an animal of a type specified by the department under sub. (4) (b), there is an implied warranty that the animal is not infected with a covered disease unless the seller discloses to the buyer in writing, prior to sale, all of the following:

(a) The management classification of the animal’s herd with respect to the covered disease.

(b) If the animal is a reactor with respect to the covered disease, that the animal is a reactor.

(3) EXCEPTION. The warranty under sub. (2) does not apply to an animal sold directly to slaughter.

(4) RULES. The department shall promulgate rules that do all of the following:

(a) Specify covered diseases.

(b) Specify types of animals to which this section applies.

(c) Prescribe a system for determining management classifications of herds with respect to covered diseases.

History: 1989 a. 277; 1999 a. 160.

Cross-reference: See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

The legislature intended this section as an implied warranty in addition to the implied warranties found in ss. 402.314 and 402.315, not as a stand-alone provision. As a result, the provisions of ch. 402, including the notice of breach requirement in s. 402.607 (3) (a), apply to a claim for breach of the warranty under this section. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07–1964.

95.197 Financial assistance for paratuberculosis testing. (1) The department shall provide financial assistance to owners of livestock herds for conducting testing for paratuberculosis.

(2) The department shall promulgate rules for providing financial assistance under sub. (1).

History: 1999 a. 9.

Cross-reference: See also ch. [ATCP 10](#), Wis. adm. code.

95.20 Import and movement of animals. The department may prohibit or regulate the importing of animals into this state or the movement of animals within this state if the department has reasonable grounds to believe that regulation or prohibition is necessary to prevent the introduction or spread of a disease in this state that threatens the health of animals or of humans.

History: 1981 c. 291; 1981 c. 391 s. 210; 2001 a. 56.

Cross-reference: See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

95.21 Rabies control program. (1) DEFINITIONS. As used in this section:

(a) “Humane officer” means an officer appointed under s. 173.03.

(am) “Isolation facility” means a humane society shelter, veterinary hospital, municipal pound or other place specified by an officer which is equipped with a pen or cage which isolates the animal from contact with other animals.

(em) “Veterinary technician” has the meaning designated under s. 453.02 (12).

(f) “Warden” has the meaning designated under s. 24.01 (11).

(2) RABIES VACCINATION REQUIRED FOR DOGS. (a) *Requirement for vaccination.* Except as provided in s. 174.054 or sub. (9) (d), the owner of a dog shall have the dog vaccinated against rabies by a veterinarian or, if a veterinarian is physically present at the location the vaccine is administered, by a veterinary technician, pursuant to s. 453.05 (2) (d), at no later than 5 months of age and revaccinated within one year after the initial vaccination. If the owner obtains the dog or brings the dog into this state after the dog has reached 5 months of age, the owner shall have the dog vaccinated against rabies within 30 days after the dog is obtained or brought into the state unless the dog has been vaccinated as evidenced by a current certificate of rabies vaccination from this state or another state. The owner of a dog shall have the dog revaccinated against rabies by a veterinarian or, if a veterinarian is physically present at the location the vaccine is administered, by a vet-

erinary technician, pursuant to s. 453.05 (2) (d), before the date that the immunization expires as stated on the certificate of vaccination or, if no date is specified, within 3 years after the previous vaccination.

(b) *Issuance of certificate of rabies vaccination.* The person who administers the vaccine under par. (a) shall complete and issue to the owner a certificate of rabies vaccination bearing a serial number and in the form approved by the department stating the owner's name and address, the name, sex, spayed or unspayed, neutered or unneutered, breed and color of the dog, the date of the vaccination, the type of rabies vaccine administered and the manufacturer's serial number, the date that the immunization expires as specified for that type of vaccine by the center for disease control of the U.S. department of health and human services and the city, village or town where the dog is required to be licensed.

(c) *Copies of certificate.* The veterinarian shall keep a copy of each certificate of rabies vaccination in a file maintained for this purpose until the date that the immunization expires or until the dog is revaccinated whichever occurs first.

(e) *Rabies vaccination tag.* After issuing the certificate of rabies vaccination, the person who administers the vaccine under par. (a) shall deliver to the owner a rabies vaccination tag of durable material bearing the same serial number as the certificate, the year the vaccination was given and the name, address and telephone number of the supervising veterinarian.

(f) *Tag to be attached.* The owner shall attach the rabies vaccination tag or a substitute tag to a collar and a collar with the tag attached shall be kept on the dog at all times but this requirement does not apply to a dog during competition or training, to a dog while hunting, to a dog securely confined indoors, to a dog securely confined in a fenced area or to a dog while actively involved in herding or controlling livestock if the dog is under the control of its owner. The substitute tag shall be of a durable material and contain the same information as the rabies vaccination tag. The requirements of this paragraph do not apply to a dog which is not required to be vaccinated under sub. (2) (a).

(g) *Duplicate tag.* The person who administers the vaccine under par. (a) may furnish a new rabies vaccination tag with a new serial number to an owner in place of the original tag upon presentation of the certificate of rabies vaccination. The person who administers the vaccine under par. (a) shall then indicate the new tag number on the certificate and keep a record in the file.

(h) *Cost.* The owner shall pay the cost of the rabies vaccination and the cost associated with the issuance of a certificate of rabies vaccination and the delivery of a rabies vaccination tag.

(3) DISTRICT QUARANTINE. (a) *Dogs confined.* If a district is quarantined for rabies, all dogs within the district shall be kept securely confined, tied, leashed or muzzled. Any dog not confined, tied, leashed or muzzled is declared a public nuisance and may be impounded. All officers shall cooperate in the enforcement of the quarantine. The clerk of every town, city or village wholly or partly within the quarantine district shall promptly post in at least 3 public places in the town, city or village, notices of quarantine furnished by the department for posting.

(b) *Exemption of vaccinated dog from district quarantine.* A dog which is immunized currently against rabies as evidenced by a valid certificate of rabies vaccination or other evidence is exempt from the district quarantine provisions of par. (a) if a rabies vaccination tag or substitute tag is attached to the dog's collar.

(4) QUARANTINE OR SACRIFICE OF AN ANIMAL SUSPECTED OF BITING A PERSON OR BEING INFECTED OR EXPOSED TO RABIES. (a) *Quarantine or sacrifice of dog or cat.* Except as provided in par. (d), an officer shall order a dog or cat quarantined if the officer has reason to believe that the animal bit a person, is infected with rabies or has been in contact with a rabid animal. If a quarantine cannot be imposed because the dog or cat cannot be captured, the officer may kill the animal. The officer may kill a dog or cat only

as a last resort or if the owner agrees. The officer shall attempt to kill the animal in a humane manner and in a manner which avoids damage to the animal's head.

(b) *Sacrifice of other animals.* An officer may order killed or may kill an animal other than a dog or cat if the officer has reason to believe that the animal bit a person or is infected with rabies. Except as provided in s. 95.36, if an animal of a species raised primarily to produce food for human consumption is killed under this paragraph, the owner is eligible for an indemnity payment in an amount equal to the indemnity provided under s. 95.31 (3). If the decision is made by an employee of the department, the indemnity shall be paid from the appropriation under s. 20.115 (2) (b). If the decision is made by another officer, the indemnity shall be paid from the dog license fund.

(c) *Sacrifice of a dog or cat.* An officer may order killed or may kill a dog or cat if the owner of the dog or cat violates sub. (5) (a), (b) or (c).

(d) *Exception for law enforcement dogs.* 1. In this paragraph, "law enforcement agency" has the meaning given in s. 165.83 (1) (b).

2. The quarantine requirement in par. (a) does not apply to a dog that is used by a law enforcement agency and that bites a person while the dog is performing law enforcement functions if the dog is immunized against rabies as evidenced by a valid certificate of rabies vaccination or other evidence. The law enforcement agency shall have the dog examined by a veterinarian on the day of the incident or the next day, on the 10th day after the incident, and on one intervening day. The law enforcement agency shall ensure that the dog is confined when not performing law enforcement functions until the 3rd examination has been performed.

(5) QUARANTINE OF DOG OR CAT. (a) *Delivery to isolation facility or quarantine on premises of owner.* An officer who orders a dog or cat to be quarantined shall deliver the animal or shall order the animal delivered to an isolation facility as soon as possible but no later than 24 hours after the original order is issued or the officer may order the animal to be quarantined on the premises of the owner if the animal is immunized currently against rabies as evidenced by a valid certificate of rabies vaccination or other evidence. If an officer delivers a dog or orders a dog to be delivered to an isolation facility and the dog is exempt from the requirement to be vaccinated against rabies under sub. (9) (d), the owner of the dog may choose an isolation facility that is a veterinary hospital.

(b) *Health risk to humans.* If a dog or cat is ordered to be quarantined because there is reason to believe that the animal bit a person, the custodian of an isolation facility or the owner shall keep the animal under strict isolation under the supervision of a veterinarian for at least 10 days after the incident occurred. In this paragraph, "supervision of a veterinarian" includes, at a minimum, examination of the animal on the first day of isolation, on the last day of isolation and on one intervening day. If the observation period is not extended and if the veterinarian certifies that the dog or cat has not exhibited any signs of rabies, the animal may be released from quarantine at the end of the observation period.

(c) *Risk to animal health.* 1. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal and if the dog or cat is not currently immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 180 days. The owner shall have the animal vaccinated against rabies between 155 and 165 days after the exposure to a rabid animal, unless the animal is exempt from the requirement to be vaccinated against rabies under sub. (9) (d).

2. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal but if the dog or cat is immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 60 days. The owner shall have the animal revaccinated against rabies as soon as possible after exposure to a rabid animal.

(d) *Sacrifice of a dog or cat exhibiting symptoms of rabies.* If a veterinarian determines that a dog or cat exhibits symptoms of rabies during the original or extended observation period, the veterinarian shall notify the owner and the officer who ordered the animal quarantined and the officer or veterinarian shall kill the animal in a humane manner and in a manner which avoids damage to the animal's head. If the dog or cat is suspected to have bitten a person, the veterinarian shall notify the person or the person's physician.

(6) **DELIVERY OF CARCASS; PREPARATION; EXAMINATION BY LABORATORY OF HYGIENE.** An officer who kills an animal shall deliver the carcass to a veterinarian or local health department, as defined in s. 250.01 (4). The veterinarian or local health department shall prepare the carcass, properly prepare and package the head of the animal in a manner to minimize deterioration, arrange for delivery by the most expeditious means feasible of the head of the animal to the state laboratory of hygiene and dispose of or arrange for the disposal of the remainder of the carcass in a manner which minimizes the risk of exposure to any rabies virus. The laboratory of hygiene shall examine the specimen and determine if the animal was infected with rabies. The state laboratory of hygiene shall notify the department, the veterinarian or local health department which prepared the carcass and, if the animal is suspected to have bitten a person, that person or that person's physician.

(7) **COOPERATION OF VETERINARIAN.** Any practicing veterinarian who is requested to be involved in the rabies control program by an officer is encouraged to cooperate in a professional capacity with the department, the laboratory of hygiene, the local health department, as defined in s. 250.01 (4), the officer involved and, if the animal is suspected to have bitten a person, the person's physician.

(8) **RESPONSIBILITY FOR QUARANTINE AND LABORATORY EXPENSES.** The owner of an animal is responsible for any expenses incurred in connection with keeping the animal in an isolation facility, supervision and examination of the animal by a veterinarian, preparation of the carcass for laboratory examination and the fee for the laboratory examination. If the owner is unknown, the county is responsible for these expenses.

(9) **LOCAL PROGRAMS.** (a) This section does not prohibit or restrict a county, city, village or town from imposing a rabies control program with more restrictive provisions.

(b) This section does not prohibit a county, city, village or town from imposing its own rabies control program if the department approves the program. The department may not approve a program unless it provides for at least 2 examinations of the quarantined animal by a veterinarian or a trained individual with veterinarian involvement during a 10-day isolation period. The department shall promulgate rules establishing criteria for the approval of programs under this paragraph and defining "trained individual" and "veterinarian involvement".

(c) The department may provide training to persons who administer local rabies control programs or who conduct rabies examinations under those programs. The department may charge fees to cover the cost of training. The fees collected under this paragraph shall be credited to the appropriation under s. 20.115 (2) (j).

(d) A city, village, or town may exempt the owner of a dog from the requirement to have the dog vaccinated against rabies for a year based on a letter from a veterinarian stating that vaccination is inadvisable because of a reaction to a previous vaccination, a physical condition, or a regimen of therapy that the dog is undergoing. The city, village, or town shall require the owner to provide a new letter for each year in which the owner seeks an exemption under this paragraph.

(10) **PENALTIES.** (a) *Failure to obtain rabies vaccination.* An owner who fails to have a dog vaccinated against rabies as required under sub. (2) (a) may be required to forfeit not less than \$50 nor more than \$100.

(b) *Refusal to comply with order or quarantine.* An owner who refuses to comply with an order issued under this section to deliver an animal to an officer, isolation facility or veterinarian or who does not comply with the conditions of an order that an animal be quarantined shall be fined not less than \$100 nor more than \$1,000 or imprisoned not more than 60 days or both.

(c) *Other violation.* A person who violates any provision of this section not specified under pars. (a) and (b) may be required to forfeit up to \$50.

95.22 Reporting animal diseases. (1) A veterinarian and the department of natural resources shall report to the department of agriculture, trade and consumer protection any disease specified in the rules promulgated under sub. (2) (a) each time a veterinarian or the department of natural resources discovers that such a disease is present in any animal in this state.

(2) The department shall promulgate rules that specify all of the following:

(a) The diseases that a veterinarian or the department of natural resources must report under this section.

(b) For each disease specified in par. (a), the deadline for reporting the disease after the date of its discovery.

(c) The information that a veterinarian or the department of natural resources must include in his or her report.

(d) Procedures to be used in preparing and submitting the report.

(3) The department of agriculture, trade and consumer protection shall notify the department of natural resources of the contents of any report submitted under sub. (1) by a veterinarian if the department of agriculture, trade and consumer protection determines that the disease that is the subject of the report may present a threat to any wild animals present in this state.

(4) The department shall provide the reports of any communicable diseases under sub. (1) to the department of health services and to the local health officer, as defined in s. 250.01 (5), for the area in which the animal is located.

95.23 Disease investigation and enforcement.

(1) Authorized inspectors and agents of the department may enter at reasonable times any premises, building or place to investigate the existence of animal diseases or to investigate violations of or otherwise enforce the laws relating to animal health. Any animals or materials suspected of being infected may be examined or tested. No person shall obstruct or interfere with such investigation or enforcement work, or attempt to do so, in any manner, by threat or otherwise.

(1m) (a) The department may conduct surveillance testing to determine whether animals have chronic wasting disease, if the department has reason to believe that the animals have been exposed to chronic wasting disease.

(b) The department shall indemnify the owner of an animal that must be killed in order to conduct testing under par. (a) in an amount equal to two-thirds of the difference between the net salvage value and the appraised value of the animal but not more than \$1,500 for one animal, except as provided in s. 95.31 (3m). The department may pay an indemnity under this paragraph from the appropriation account under s. 20.115 (2) (b) only if funds received by the department under s. 20.115 (2) (m) and (8) (ks) for the payment of indemnities are insufficient to pay the indemnity.

(2) Upon request of an authorized inspector or agent of the department, sheriffs and police officers shall assist in the enforcement of the laws relating to animal health.

(3) Upon reasonable notice from the department, owners or persons in charge of animals shall cause them to be restrained or confined so that they may be identified, examined and tested or otherwise treated or disposed of as authorized by law.

(4) When any animals or materials infected or suspected of being infected have been quarantined, no person shall remove them from the premises, or otherwise fail to comply with the terms of the quarantine, except upon written permit from the department.

95.232 Confidentiality of paratuberculosis records.

Any information kept by the department that identifies the owners of livestock herds infected, or suspected of being infected, with paratuberculosis is not subject to inspection or copying under s. [19.35](#) except as the department determines is necessary to protect the public health, safety or welfare.

95.24 Living vaccine, hog cholera, anthrax, swine erysipelas. (1)

No person shall have in his or her possession or furnish to another any live virus hog cholera vaccine, including vaccines produced from a modified or attenuated strain of hog cholera virus, except that such vaccines may be in the possession of a biological laboratory inspected and licensed by the federal government, persons having written approval from the department for its experimental use, or veterinarians having a permit from the department for its use in vaccinating or treating swine as necessary for export or for such other uses as are authorized by the department for the control of serious outbreaks of the disease.

(3) (a) No type of living vaccine for immunizing against anthrax or swine erysipelas may be administered to any domestic animal or sold or dispensed in this state without first having obtained the written approval of the chief veterinarian of the department. Approval to administer such vaccine shall be granted to licensed veterinarians only, and then only to qualify the domestic animal for export or in the event that any of the following has been established:

1. The domestic animals to be so treated are infected.
2. The domestic animals to be so treated are on premises known to be contaminated.
3. The domestic animals to be so treated have been exposed within 40 days to infection with the disease for which the living vaccine is prescribed as a proper immunizing agent.

(b) Every veterinarian who so administers such living vaccine shall render to the department a report of the use and the results thereof at such time and in such manner as it may require.

95.25 Tuberculosis control program. (1) In order to detect and control bovine tuberculosis the department may test for tuberculosis those cattle where indication of possible infection is disclosed by means of the slaughter cattle identification program and any other cattle, farm-raised deer or other species the department has reason to believe may be infected or exposed or considers necessary to test for any other reason. Tuberculosis tests authorized by the department shall be made at such times and in such manner as the department determines, in the light of the latest and best scientific and practical knowledge and experience.

(2) Upon reasonable notice, the department, its authorized agents and all inspectors and persons appointed or authorized to assist in the work of applying the tuberculin test, may enter any buildings or enclosures where cattle, farm-raised deer or other species are, for the purpose of making inspection and applying the

tuberculin test, and any person who interferes therewith or obstructs them in their work or attempts to obstruct or prevent by force the inspection and the testing shall, in addition to the penalty prescribed therefor, be liable for all damages caused thereby to the state or to any person lawfully engaged in the work of inspection and testing.

(2m) The owner or other person in possession of animals subject to inspection or testing under this section shall provide animal handling facilities to ensure the safety of the animals and the persons conducting the inspection or testing under this section.

(3) The department shall provide all the necessary equipment and supplies and inspectors and make all arrangements necessary for the carrying on and completion of the work authorized by this section. If any such equipment or supplies are no longer needed, they may be disposed of by the department of administration, and the proceeds derived from the sale shall be paid into the state treasury and credited to the appropriation for such testing.

(4) Retests of infected herds shall be made by the department at such intervals as the department deems necessary to protect the work already done and to preserve the modified accredited or tuberculosis free status of the state under the specifications and regulations of the U.S. department of agriculture and the agreements among the various states.

(4m) The department is not liable for injury to or death of animals during inspection or testing under this section unless negligence by the department causes the injury or death.

(5) For each animal of a species raised primarily to produce food for human consumption, including farm-raised deer, condemned and slaughtered, except as provided in s. [95.36](#), the owner shall receive and, upon certificate of the department, the state shall pay two-thirds of the difference between the net salvage value and the appraised value of the animal, but the payment may not exceed \$1,500 for an animal.

(6) The department may, with the owner's consent, condemn animals which have been exposed to tuberculosis or which are suspected of being infected, although such animals have not reacted to the tuberculosis tests.

95.26 Brucellosis control program. (1) In order to detect and control bovine brucellosis the department shall conduct milk and cream tests and blood tests as provided in this section. Milk and cream shall be tested by the brucellosis ring test, hereafter referred to as the B.R.T. test. Blood shall be tested by blood serum agglutination or other test methods approved by the department, hereafter referred to as the brucellosis test.

(2) All milk and cream received at every dairy plant shall be tested at not more than 6-month intervals by the B.R.T. test, and brucellosis tests shall be applied promptly to cattle when the milk or cream therefrom discloses a positive reaction to the B.R.T. test or to cattle and American bison when other indications of possible infection are disclosed. All cattle and American bison, except steers and spayed heifers, shall be subject to the brucellosis test, but official vaccinates not older than the maximum age prescribed by rules of the department need not be tested except when deemed necessary by the department or the attending veterinarian. Brucellosis tests and official vaccination provided for in this section shall be performed by a veterinarian approved by the department. When brucellosis tests are not conducted by any such veterinarian within 15 days of the date notice to test is mailed to the cattle or American bison owner, the department shall conduct such tests. Except where compensated by the federal government, approved veterinarians performing testing and vaccination under this section shall be paid by the state at uniform rates established by the department. Blood samples drawn for the brucellosis test shall be submitted to the department promptly for laboratory examination.

(3) If the existence of brucellosis within the state results in the termination of its status as a certified brucellosis-free area by the

U.S. department of agriculture, the department shall request the release of funds by the joint committee on finance from the appropriation under s. 20.865 (4) (a) to pay for official vaccination, as provided in s. 95.46 (2), of all female calves located within any county where the incidence of brucellosis disqualifies it for such designation.

(4) Cattle and American bison that are classified as “reactors” to the brucellosis test, whether or not conducted pursuant to this section, shall be slaughtered. A report of any test disclosing reactors shall be mailed to the owner thereof. The reactors shall be identified by a reactor tag and permanent mark as prescribed by the department. The owner shall effect slaughter of the reactors within 15 days of the date they are so identified, except that the department, for cause shown, may extend the time an additional 15 days. If the owner of reactors fails to comply with this subsection within the time limited, the department shall cause the removal and slaughter of the reactors. No indemnity shall be paid on any reactors disposed of by the department. No milk shall be sold from any reactors or from any herd of cattle in which reactors are kept contrary to the provisions of this section.

(5) When reactors to any brucellosis test are disclosed in a herd of cattle or American bison the department shall quarantine the entire herd by serving written notice thereof, either personally or by mail, on the owner or person in charge, but such quarantine shall not be imposed if the department, upon the basis of the clinical history of the herd with respect to brucellosis and the recommendation of the attending veterinarian, determines it is improbable that the cattle or American bison will contract brucellosis. No cattle or American bison subject to the quarantine shall be removed from the premises where the cattle or American bison are quarantined, except upon written permit of the department. The quarantine shall remain in full force until removed by the department. Such retests shall be conducted as the department finds necessary to eliminate all reactors or other evidence of infection in the herd.

(5m) (a) The department may obtain blood or tissue samples from swine and farm-raised deer to test for brucellosis.

(b) The department may condemn swine and farm-raised deer that are reactors to the brucellosis test and may quarantine the herd from which the reactors come.

(6) The department may acquire, equip and maintain laboratories, including mobile units and promulgate rules and regulations not inconsistent with law so as to effectively execute its functions under the brucellosis control program.

(7) For each animal of a species raised primarily to produce food for human consumption, including farm-raised deer, condemned and slaughtered, except as provided in ss. 95.36 and 95.48, the owner shall receive and, upon certificate of the department, the state shall pay two-thirds of the difference between the net salvage value and the appraised value of the animal, but the payment may not exceed \$1,500 for an animal. With the consent of the owner the department may condemn, in infected herds, animals which have been exposed and which are suspected of being infected, although the animals have not reacted to the brucellosis tests.

95.27 Pseudorabies control program; indemnities.

(1) In order to detect, control and eradicate pseudorabies the department shall obtain blood or tissue samples from Wisconsin swine on a systematic basis. The department shall test the samples for pseudorabies.

(2) In the eradication and control of pseudorabies, the department may, whenever such action is necessary to prevent or reduce the spread of disease, quarantine or condemn and order the destruction of any swine which in the opinion of the department are infected with or have been exposed to pseudorabies.

(3) The department may enter into cooperative agreements with the federal government or any department or other agency for the control and eradication of pseudorabies in this state, including the payment of indemnities authorized under this section.

(4) Subject to sub. (5) and s. 95.36, the department shall indemnify the owner of swine that have been condemned and destroyed under this section. The department shall pay to the owner for each animal destroyed the difference between the net salvage value and the appraised value of the animal, but the payment may not exceed \$1,500 for an animal. State payments shall be made from the appropriation under s. 20.115 (2) (b).

(5) Indemnities may not be paid under this section unless the owner of affected swine enters into, and acts in accordance with, an agreement with the department for the eradication of pseudorabies. An agreement entered into under this section shall contain a plan for the eradication of pseudorabies and shall be based upon scientifically accepted methods. The department shall monitor the implementation of an agreement to determine compliance and to determine whether the agreement needs to be modified.

(6) The owner of any swine affected by this section may appeal an order made under this section by filing with the department a request for a hearing under s. 93.18 within 5 days after receipt of notice of the order.

(7) A person in control of any premises on which swine have died of pseudorabies shall promptly dispose of the carcasses as provided under s. 95.50 or have the carcasses removed by a renderer licensed under s. 95.72.

(8) The department may adopt rules that are necessary to administer this section.

95.30 Disposal of animals infected with tuberculosis.

The owner of cattle or farm-raised deer tested and found to be afflicted with bovine tuberculosis shall ship them under the direction of the department to some place designated by it for immediate slaughter under U.S. government inspection, or under the inspection approved by the department.

95.31 Condemnation of diseased animals.

(1) The department may condemn animals that are affected with or exposed to a contagious or infectious disease if the department determines that it is necessary to do so to prevent or control the spread of the disease. Condemned animals shall be slaughtered or destroyed as directed by the department.

(2) If the department determines that it is necessary to condemn an animal under sub. (1), the department shall, in all cases where the payment of indemnities is authorized under this chapter, appraise the animal as provided in s. 95.32 and shall notify the owner in writing of the appraised value. The notice shall include the number and description of the animals and the name of the owner.

(3) In addition to the indemnities for specific animal diseases provided under ss. 95.25, 95.26 and 95.27 or under special emergency programs and subject to s. 95.36, the department shall pay indemnities on livestock condemned and slaughtered or destroyed because of other diseases if the department determines that the condemnation and slaughter or destruction is necessary to protect public health or the livestock industry. The indemnity under this subsection shall be two-thirds of the difference between net salvage value and appraised value, but may not exceed \$1,500 for an animal, except as provided in sub. (3m). As used in this subsection, “livestock” means animals of species raised primarily to produce food for human consumption, including farm-raised deer.

(3m) If the department condemns an animal because the animal is suspected to have a transmissible spongiform encephalopathy and the owner disposes of the carcass as directed by the department, the department shall increase the amount of the indemnity

calculated under sub. (3) or s. 95.23 (1m) (b) by the costs of the destruction of the animal and of the disposal, transportation, and any necessary storage of the animal's carcass. An indemnity paid because of the condemnation of an animal to which this subsection applies may exceed \$1,500.

(4) In the event of a major or serious outbreak of a contagious or infectious disease that may affect public health or the health of animals and that requires special control measures, the department may request the joint committee on finance to release funds appropriated under s. 20.115 (2) (b) as needed to conduct emergency control programs independently or in cooperation with federal or local units of government and, subject to s. 95.36, to pay indemnities on animals of species raised primarily to produce food for human consumption, including farm-raised deer, condemned and slaughtered or destroyed under the emergency control programs. For all indemnities paid under this subsection, the state shall pay two-thirds of the difference between the net salvage value and the appraised value of an animal, except that no payment may exceed \$1,500 for an animal.

95.32 Appraised value. (1) The department shall determine the appraised value of an animal that is destroyed under s. 95.21 (4) (b), 95.23 (1m), 95.25, 95.26, 95.27 or 95.31 (3) or (4) if the animal's owner is eligible for an indemnity.

(2) Except as provided in sub. (3), the appraised value for an animal that is of an animal type that is frequently sold at public auction shall equal the average price paid for a commercial grade animal of the same animal type at public auction sales during a period specified by the department.

(3) The appraised value of a registered purebred animal of an animal type that is frequently sold at public auction shall equal 125% of the amount determined under sub. (2) for that animal type.

(4) Using a method specified under sub. (5) (c), the department shall determine the appraised value of an animal of an animal type that is not frequently sold at public auction.

(5) (a) The department shall promulgate rules specifying animal types for the purposes of this section. The animal types may be based on characteristics of animals that include species, gender and age. The rules shall specify whether each animal type is frequently sold at public auction.

(b) The department shall promulgate rules specifying the period of public auction sales that will be used in the appraisal of each animal type to which sub. (2) applies. The period may not begin more than 6 months before the date on which the department makes the appraisal.

(c) The department shall promulgate rules specifying methods for determining the appraised value of animals of animal types that are not frequently sold at public auction. The methods shall be as consistent as possible with the method under sub. (2).

History: 1977 c. 146; 1977 c. 449 s. 497; 1981 c. 20; 1995 a. 450; 2001 a. 108.

The department shall order the destruction of dead animals or any animal hides or products determined to be infected with a highly contagious or infectious disease or unfit for use as food for animals.

(5) **RULES.** The department shall promulgate rules governing the collection, transportation, processing, rendering and disposal of dead animals, entrails and paunch materials, the slaughtering of animals for animal food processing or rendering, the location, construction and maintenance of all buildings, facilities and equipment used in collecting, slaughtering and processing operations, the sale or use of dead animal products as food for animals, the issuance of licenses or permits and other rules for the conduct of operations subject to a license under this section.

The department shall allow a reasonable time not exceeding 90 days for the applicant or licensee to make the changes. The department shall conduct a reinspection to determine compliance with the department's order or the need to order further changes. The department may allow an additional 90 days if it is necessary for the applicant or licensee to correct deficiencies discovered during the reinspection. History: CR 04-103; cr. Register September 2005 No. 597, eff. 10-1-05; CR 06-009; am. (19) and (20) Register September 2006 No. 609, eff. 10-1-06; CR 06-028; am. (1) (c) Register November 2006 No. 611, eff. 12-1-06; **CR 07-107; am. (8) and (28) Register November 2008 No. 635, eff. 12-1-08.**

ATCP 17.02 Livestock premises; registration required. (1) GENERAL. A person may not keep livestock at a location in this state unless that location is registered under this section. There is no fee to register. A registration expires on the third December 31 after it is issued.

Note: Once a person completes an initial registration, subsequent registrations will be relatively simple. The department will send the registrant a renewal application form (or directions on how to renew on-line) prior to the renewal deadline. The renewal transaction may be conducted by mail, online or by e-mail if an e-mail address has been provided. The renewal application form will include pre-printed information obtained from the last previous registration. The registrant may renew the registration by returning the pre-printed form with corrections, if any. There is no fee for an initial or renewal registration.

(2) WHO MUST REGISTER. (a) If 2 or more persons are involved in keeping livestock at the same location, one of those persons shall register that location. A person is not required to register a location that is currently registered by another person. A premises registration by one person does not prevent other persons from keeping livestock on the registered premises.

Note: For example, if *Person A* feeds and cares for livestock owned by *Person B*, on premises owned by *Person C*, any one of those persons may register the premises (the others need not). Likewise, if *Person X* pastures livestock on land that *Person Y* owns and also uses to pasture livestock, either person may register that pasture (the other need not).

(b) A person may not register a premises that is currently registered by another person. The department may transfer a current registration from the current registrant to another person if the department finds that the other person is licensed to operate the premises under other applicable law, is more directly engaged in operating the premises, or can provide more definitive knowledge of livestock movements to and from the premises. The department shall notify the current registrant and give the current registrant a chance to comment before transferring a registration to another person.

(c) If a person keeps livestock at any location as part of an operation for which that person is required to hold another license, registration or permit from the department, that person may register that location as part of the person’s initial application for that other license, registration or permit.

Note: For example, if a person holds or is required to hold a dairy farm license under s. ATCP 60.02 (2), a deer farm registration under s. ATCP 10.46 (1), a fish farm registration under s. ATCP 10.61 (1), an animal market license under s. ATCP 12.02, an animal dealer license under s. ATCP 12.03, an animal trucker license under s. ATCP 12.04, a meat establishment license under s. ATCP 55.03 (1), an equine quarantine station permit under s. ATCP 10.37 (3), or a rendering establishment or other license under s. 95.72, Stats., that person may register each related livestock premises location as part of the person’s initial application for that other license, registration or permit. Subsequent license renewal applications must include the livestock premises registration number assigned under this chapter.

(3) HOW TO REGISTER. Except as provided in sub. (2) (c), a person shall register in one of the following ways:

(a) By applying on-line at <http://www.datcp.state.wi.us/>.

(b) By filing a hard-copy application with the department on a form provided by the department.

Note: A person may obtain an application form from the department and may submit the completed form to the department at the following address:

Wisconsin Department of Agriculture, Trade and Consumer Protection
2811 Agriculture Drive
PO Box 8911
Madison, WI 53708-8911
Phone: (608) 224-4872
E-mail: premises@datcp.state.wi.us

(4) INFORMATION REQUIRED. A registration application under sub. (3) shall include all of the following information:

(a) The registrant’s legal name, and any trade names under which the registrant keeps livestock in this state.

(b) The registrant’s mailing address.

(bm) The registrant’s county.

(c) The registrant’s telephone number.

(d) The address of the primary premises location, including county.

Note: See s. ATCP 17.01 (1). A street address is preferred.

(e) A description of each secondary location included in the premises. A person may not register more than 3 secondary locations under a single premises code without department approval. The department may consider whether the secondary locations are part of the same premises, for registration purposes, or whether they should be registered as separate premises under separate premises codes.

Note: See s. ATCP 17.01 (18) and (35). Secondary locations are locations that share or commingle animals with the primary location, and are related to the primary location. For example, a dairy farm “premises” may include a primary location (that includes the milking barn or parlor) and one or more secondary locations (such as non-contiguous pastures or heifer facilities).

If a person keeps livestock at multiple locations but never moves or commingles livestock between those locations, the person should register the locations as separate premises (separate primary locations, each with its own premises code).

(f) The name and telephone number of at least one individual who has knowledge of livestock and livestock carcass movements to and from every location included in the premises.

(g) The types of livestock operations conducted on the premises. The registrant shall designate one or more of the following:

1. Farm or production unit.

2. Market or livestock collection point.

3. Slaughter establishment.

4. Rendering or carcass collection point.

5. Clinic.

6. Livestock exhibition.

7. Quarantine facility.

8. Other. The registrant shall specify the type or types of operations.

(h) The types of livestock or livestock carcasses kept on the premises. The registrant shall designate one or more of the following:

Unofficial Text (See Printed Volume). Current through date and Register shown on Title Page.

1. Bovine animals. The registrant shall indicate whether the bovine animals are beef cattle, dairy cattle or bison.
2. Swine.
3. Sheep.
4. Goats.
5. Horses or other equine animals.
6. Farm-raised deer.
7. Poultry.
8. Llamas, alpacas or other camelids.
9. Fish.
10. Other. The registrant shall specify the type or types of livestock.

(5) DEPARTMENT ACTION ON REGISTRATION APPLICATION. (a) Except as provided in par. (d), the department shall grant or deny a registration application under sub. (3) within 30 days after the department receives a complete registration application.

Note: The department will normally grant or deny an on-line application at the time of the on-line application. If the department grants an on-line application, the department will immediately issue a printable electronic registration certificate to the applicant.

(b) The department may deny a registration application if the application is incorrect or incomplete, or if the primary location identified in the application is currently registered. The department shall state the reason for the denial.

(c) If the department denies an application because the primary location identified in the application is already registered, the department shall disclose to the applicant the premises code assigned to that registered primary location. The denial does not prevent the applicant from keeping livestock at the registered primary location or from registering other locations.

(d) If a person submits a registration application under sub. (2) (c) as part of that person's application for another license, permit or registration, the department shall grant or deny the registration application within the time period prescribed for department action on the other license, permit or registration application. The denial, suspension or revocation of another license, permit or registration does not affect a premises registration under this section.

(6) REGISTRATION CERTIFICATE. (a) Whenever the department grants a registration application under sub. (3), the department shall immediately issue a registration certificate to the registrant. The registration certificate shall bear an expiration date that complies with sub. (1). The department shall issue the registration certificate in hard-copy or printable electronic form, depending on the method of registration.

Note: A person who registers on-line will normally receive a printable electronic registration certificate at the time of the on-line registration.

(b) A registration certificate under par. (a) shall include a premises code assigned under sub. (7).

(c) A registration certificate covers the primary location and all secondary locations identified in the approved registration application, regardless of whether the certificate includes descriptions of all of those locations.

(d) If a person submits a premises registration application as part of that person's application for another license, permit or registration identified in sub. (2) (c), the department shall issue the premises registration certificate with or as part of that other license, permit or registration.

(7) PREMISES CODE. Whenever the department grants a registration application under sub. (3), the department shall assign a unique code to the primary location identified in that application. The premises code shall be generated by the United States department of agriculture. A premises code may not be transferred to another location.

Note: A premises code, once assigned to a primary location, normally continues with that location even if the registrant changes. If a registrant adds or removes a secondary location without changing the primary location, the premises code will remain the same. But if the primary premises location is subdivided among new registrants,

the premises code assigned to that location will be retired and a new premises code will be assigned to each new primary location created by the subdivision.

ATCP 17.03 Confidential information. (1) GENERAL. Except as provided in subs. (2) to (4), premises registration information received by the department or its contract agent under s. ATCP 17.02 is confidential and may not be disclosed to any other person or agency.

Note: A premises code is not confidential because it is not received from the registrant but is issued by the department. A premises code, by itself, does not reveal any information received from a registrant.

(2) INFORMATION REQUIRED BY OTHER LAWS. Subsection (1) does not apply to information that a person is required to provide to the department under other law. This subsection does not authorize disclosure of information that is protected from disclosure under other law.

Note: For example, information that was required of license holders and was open to public inspection prior to the effective date of the livestock premises registration law, s. 95.51, Stats., remains open to public inspection. But premises registration information required for the first time under s. 95.51, Stats., or this chapter must be kept confidential.

(3) AUTHORIZED DISCLOSURE. The department may disclose, to any of the following, information that a registrant provides under s. ATCP 17.02:

(a) A person to whom the registrant authorizes disclosure.

(b) The animal and plant health inspection service of the United States department of agriculture, if the animal and plant health inspection service agrees not to disclose the information except in situations in which the department is authorized to disclose the information.

(c) The department's contract agent, subject to this section and s. ATCP 17.04.

(d) To another person or agency, or to the public, if the department believes that the release is necessary to prevent or control disease, to enforce laws under its jurisdiction, or to protect public health, safety, or welfare. The department may disclose information under this paragraph subject to any confidentiality requirements that the department considers necessary under the circumstances.

(4) AGGREGATE INFORMATION. (a) The department may create aggregate information, such as maps and statistics, from registration information obtained under s. ATCP 17.02. Except as provided in par. (b), the department may disclose that aggregate information to another person or agency, or to the public.

(b) The department may not disclose aggregate information under par. (a) that does any of the following, unless that information qualifies for disclosure under sub. (2) or (3):

1. Discloses the street address, section number, geographic coordinates of any premises, or the identity of any registrant.

2. Makes it possible to deduce with certainty the street address, section number or geographic coordinates of any premises, or the identity of any registrant.

Note: For example, the department may not disclose a detailed map that permits readers to deduce with certainty the street address, section number or geographic coordinates of any premises, or the identities of registrants whose premises are portrayed by points on the map. However, the department may disclose less detailed maps.

(5) DISCLOSURE BY CONTRACT AGENT. The department may authorize its contract agent to disclose, on behalf of the department, information that the department is authorized to disclose under this section, except that the department may not authorize its contract agent to release aggregate information.

(a) The services that the contract agent will perform for the department, and the price for which the contract agent will perform those services.

(b) The scope of authority that the department delegates to the contract agent for the purpose of performing the services under par. (a), and relevant limits on that authority.

(c) The registration process and forms approved under sub. (3), if the contract agent will process registrations on behalf of the department.

(d) Terms related to information disclosure and confidentiality, including the terms specified in sub. (4).

INSTRUCTIONS

The livestock premises registration program is intended to protect animal health. Premises registration will help state animal health officials respond quickly to an animal health emergency. If you keep livestock in Wisconsin, please complete the enclosed livestock premises registration renewal form and return it in the envelope provided.

Which animals are considered “livestock”? See Section E for additional livestock types

- **Bovine** (bison, beef cattle, and dairy cattle).
- **Horses or other equine.**
- **Poultry** (includes ratites and captive game birds, see section E).
- **Swine.**
- **Sheep.**
- **Farm-raised deer or other cervids.**
- **Fish** (kept at a fish farm).
- **Goats.**
- **Llamas, alpacas, or other camelids.**

Who needs to register?

Any person[†] who keeps one or more livestock animals at a location in Wisconsin is required to register that location. To “keep livestock” means to own, feed, house, confine or care for livestock, or to exercise legal or physical control over livestock. However, if two or more persons have a role in keeping livestock at the same location, then any one of those persons may register that location – one registration will suffice for all.

Certain DATCP licensees that keep livestock must register, including **slaughter establishments** required to be licensed under s. ATCP 55.03(3), **equine quarantine stations** for which a permit is required under s. ATCP 10.37(3), **deer farms** required to be registered under s. ATCP 10.46, **fish farms** required to be registered under s. ATCP 10.61, **animal markets** required to be registered under s. ATCP 12.02, **animal dealer premises** operated by animal dealers required to be licensed under s. ATCP 12.03 (unless the premises is registered as an animal market), **animal trucker premises** operated by animal truckers required to be licensed under s. ATCP 12.04 (unless the premises is registered as an animal market or as a premises operated by an animal dealer), **approved import feed lots** receiving a permit under s. ATCP 10.22(9), **rendering establishments, animal food processing establishments, and grease processing establishments** required to be licensed under Wis. Stat. s. 95.72. Transfer stations or other locations at which an operator collects livestock carcasses must be included. Dairy farms on which dairy cattle are kept must be registered. Livestock premises registration expires on the third December 31 after it is issued.

Which locations need to be registered?

Every location at which livestock is kept in Wisconsin must be registered. Certain licensed livestock facility operations that keep or receive livestock **or livestock carcasses** at their sites must also be registered (See “Who needs to register?” above). Even if there are only one or two livestock animals at a location, that location must be registered. Locations where livestock are kept as pets or for family use only must also be registered.

Section A – Registrant information

The ‘registrant’ is the name of the individual registering (first name, middle initial, last name) OR the legal name of the business (or other legal entity) that is registering. If the registrant is required to hold one of the licenses listed above, this registration should be in the name of the individual or legal entity that holds that license.

[†] “Person” means an individual, corporation, partnership, cooperative, limited liability company, trust or other legal entity.

Continued on next page.

Section B – Contact information

'Primary contact' is the individual who best knows about livestock movement on and off or between the premises locations being registered and can be contacted if there is an animal disease emergency. If the primary contact individual does not have a phone number, provide the phone number of someone who would be able to reach the contact in case of an emergency, like a neighbor.

Section C – Address of primary premises location

If the primary premises location does not have an address, enter a description of the location from a designated point (Example: "1/4 mile east of the intersection of Main Road and Jefferson Lane on Main Road") and provide geographic coordinates. Call toll-free (888) 808-1910 for assistance.

Section D – Livestock premises type and non-producer participants

"Non-producer participants" are only those persons engaged in the USDA Disease Traceability Framework, such as the United States Animal Identification Number (USAIN) manager, USAIN tag distributor, designated animal health officials, and designated diagnostic laboratories.

If there is more than one business operation on a premises, call toll-free (888) 808-1910 for further instructions.

Section E – Types of livestock or livestock carcasses on premises

Livestock types include:

▪ **Bovine** (bison, beef cattle, and dairy cattle) ▪ **Camelids** (includes llamas and alpacas) ▪ **Captive cervids** (includes deer, elk, moose, caribou, reindeer and the subfamily musk deer) ▪ **Equine** (includes horses, mules and donkeys) ▪ **Fish** (includes all fish kept at a fish farm that requires registration under s. ATCP 10.61) ▪ **Goats** ▪ **Poultry** (includes **domesticated fowl** like chickens, turkeys, geese, ducks, guinea fowl, squab, **ratites** like rheas, ostriches, emus, cassowaries, kiwi, and **captive game birds** like pheasants, quail, wild turkeys, migratory wildfowl, pigeons, and exotic birds raised for hunting, which are raised in captivity) ▪ **Sheep** ▪ **Swine**

Section F – Secondary locations

In addition to your primary premises location (see Section C), you can also register one or more secondary (additional) locations at which you keep your livestock from time to time.

- For example, a dairy farm "premises" may include a *primary* location (that includes the milking barn or parlor) and one or more *secondary* locations (such as a non-contiguous pasture or heifer facility).
- If a person keeps livestock at multiple locations but never moves or commingles livestock between those locations, the person is advised to register those locations as separate premises (separate primary locations, each with its own livestock premises code).

If a secondary location has no street address, provide general directions from the primary premises to the secondary location and any other information that would help determine where that location is.

No more than 3 secondary locations can be added under a single livestock premises code without department approval. (To seek approval, contact the department at the address listed at the top left corner of the form or call 608-224-4884.)

The department will determine whether the secondary locations are part of the same premises for registration purposes, or whether they should be registered as separate premises under separate livestock premises codes.

Additional premises must be registered separately. Additional premises registration forms may be obtained by calling (888) 808-1910.

Information provided for livestock premises registration is CONFIDENTIAL as provided under Wis. Stat. s. 95.51 and s. ATCP 17.03, Wis. Adm. Code. However, personally identifiable information as defined under Wis. Stat. s. 19.62(5), which has been provided to the department for licensure or other purposes, may be subject to inspection under Wisconsin's Open Records Law, Wis. Stat. ss. 19.31-19.39. See also Wis. Stat. s. 15.04(1)(m).

Failure to provide the required information may result in penalties, which include withholding any license, registration, certificate or permit issued by the department under Wis. Stat. chs. 93, 95, and 97 and chs. ATCP 10, 12, 17, 55, 57, or 60 Wis. Adm. Code, and penalties including those under Wis. Stat. ss. 95.99 and 97.22.

DATCP is an equal opportunity employer.

Upon request, this application can be made accessible to persons with disabilities.

If you have any questions, please call toll-free (888) 808-1910.
