DFW directors guide the organization’ finances, formulate and set its policies and long-range business plan, and maintain its mission: “To help grow demand for Wisconsin milk by providing programs that enhance the competitiveness of the Wisconsin Dairy Industry.” Through these initiatives, a DFW director has the opportunity to represent Wisconsin dairy producers and products, as well as become involved in activities that inform and educate consumers.

### About the 2018 Election

There were 13 certified candidates running for eight board-member positions. Of the 2,589 dairy producers living in the election districts, per DATCP records, 13.4 percent returned ballots. That is an increase in election return over the previous year. District 23, which had three candidates on the ballot, recorded the most election participation with 17.8 percent of eligible producers in that district voting. The election closed May 25, 2018. The board has a total of 25 directors.

DATCP supervises the election of Wisconsin’s marketing boards and monitors marketing board operations for compliance with applicable statues and rules.
