This order is issued by the WDATCP under authority of secs. 93.18 and 94.01, Wis. Stats. The order is issued because the regulated articles do not have proper inspection permits/certificates from the state of origin. The WDATCP, therefore, has reason to believe that the regulated articles may be infected or infested with injurious pests. Pursuant to sec. 94.01, Wis. Stats., and secs. ATCP 1.03 and 21.03, Wis. Admin. Code, the Department may regulate the movement and prevent the sale of the articles until proper inspection. The Department may further order the removal from sale and the treatment and destruction of any regulated articles, which are infested or infected with injurious pests. This order has the force and effect of a special order under sec. 93.18, Wis. Stats., and may be appealed to the Department by writing to the Director of the Plant Industry Bureau within ten (10) days after the date of services of this order.
