\*WHAT IS A PHC? A PHC, or Plant Health Certificate, is a reproducible document which can and should be sent with plant shipments that travel outside of Wisconsin. Many states require this certificate and will destroy, detain or refuse plants or plant material that is not accompanied by a PHC. Although we do not require this certificate, we strongly recommend obtaining one if you are shipping nursery stock out of Wisconsin.

For more information about nursery licensing and shipping plants or plant products, see our website at <http://www.datcp.state.wi.us>. There, you can find all licensing forms and a complete list of frequently asked questions regarding nursery licensing with the State of Wisconsin.
