How To Use The Dairy Plant Directory

The 2018-2019 Wisconsin Dairy Plant Directory is designed to enable the user to locate and identify the business office and plant location of every licensed dairy plant and bulk milk tanker (BMT) wash facility in Wisconsin.

In the first section, each plant is listed by county and is identified by dairy plant number, trade name, plant address, and processing operations information.

The second section is a numerical listing and the third section is an alphabetical listing of the dairy plants. This is useful when tracing the origin of a cheese or dairy product.

There are 403 dairy plants operating in the State of Wisconsin and they are designated with the prefix 55.

There are 69 bulk milk tanker wash facilities and they are designated with the prefix 54.

The directory can be found on our web site <https://datcp.wi.gov> under Publications/ Directories/ Dairy.

You can contact the Division of Food and Recreational Safety at (608) 224-4683.
