

Emerald Ash Borer Detections in Wisconsin

Wisconsin Department of Agriculture, Trade and Consumer Protection

Although APHIS removed the federal domestic Emerald Ash Borer (EAB) quarantine regulations as of January 14, 2021, ash wood and firewood movement within and outside Wisconsin may be restricted by other tribal and state regulations. Areas in yellow on the map have never had an EAB detection, making uncertified firewood movement from infested areas discouraged. EAB has been confirmed only within the municipal boundaries colored in green or on tribal lands colored in blue. By avoiding moving uncertified firewood long distances, we can continue to reduce artificial spread of EAB. Please visit www.emeraldashborer.wi.gov for more information.

- EAB Found
- EAB Found on Tribal Land
- No EAB Detections
- Tribal Land
