</tbody>
</table>

**USE DIRECTIONS**

Feed so that cattle will be consuming between **16.7** and **24.0** pounds per head per day which provides not less than 250 mg nor more than 360 mg lasalocid per head per day. Feed continuously.

Feed continuously at the rate of not less than 25 grams nor more than 30 grams of lasalocid per ton of total ration (90% dry matter) to provide not less than 250 mg nor more than 360 mg per head per day.

**PRECAUTIONARY STATEMENTS**

**WARNING:** A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.

**CAUTION:** The safety of lasalocid for use in unapproved species has not been established. Do not allow horses or other equines access to feeds containing lasalocid as ingestion may be fatal.
