[KORUS Renegotiation Outcome](#)

Source: US Dairy Export Council

The United States and South Korea reached an agreement in principle that preserves the U.S.-South Korea Free Trade Agreement (KORUS) while also addressing certain customs concerns that have created challenges for U.S. exporters. This approach of retaining and strengthening our partnership with Korea under the existing agreement is one USDEC advocated throughout last year and has now been achieved. Both U.S. and Korean officials referred to the revised deal as a "win-win." To read a joint USDEC/NMPF press release on the KORUS renegotiation outcome, click [here](#).
