

Approved Hemp CBD Varieties

The following high CBD varieties of hemp seed/clones have been approved by DATCP to grow in Wisconsin in 2019.

Approval to grow does not guarantee a variety will pass the DATCP pre-harvest regulatory test as THC levels in high CBD hemp varieties are not stable. Growers are responsible for monitoring their crops. Any field/variety that does not pass the required DATCP pre-harvest regulatory test with a Total THC concentration of 0.3% or below will be ordered to be destroyed. DATCP calculates Total THC as delta9-THC + (THCA *0.877); and we round down so 0.399 => 0.3%.

To seek approval of a high-CBD variety not included on this list please send the name of the variety, the name of the supplier, and a lab analysis of the variety (often referred to as a Certificate of Analysis) to

DATCPIndustrialHemp@Wisconsin.gov.

3 Peacemaker	Cherry 307	Florence
A-2	Cherry 308	FRB Early Pearly
A 9 Auto	Cherry 5	Frosted Lime
A11 Auto	Cherry A	GLP Quantum C
