

INSPECTION STATEMENT FOR INTRASTATE MOVEMENT OF REGULATED ARTICLES

Each load leaving a gypsy moth quarantined county and moving into a non-quarantined county **MUST** be accompanied by an Inspection Statement from a WDATCP trained individual. This form can be used as your inspection statement by checking one of the selections below, signing, including ID Number and Date. This form must be presented to the receiver at the destination mill and will be kept on file for 36 months.

- The logs were found to be free of gypsy moth infestation.
- Gypsy moth life stages found on the logs were removed and destroyed within the quarantine area.
- Load is pulpwood, chips, or woody biomass destined for a pulp mill, staging yard, or biomass plant with a valid compliance agreement.

COMPANY NAME - Compliance agreement #WI-GM-CA-0XXX - Gypsy Moth trainee ID #XXXX (Insp. name)
