

Retail Fueling Facility Compliance Training

For Owners and Operators

The Wisconsin Department of Agriculture, Trade and Consumer Protection's Bureau of Weights and Measures is once again conducting retail fueling facility compliance training at no cost to owners and operators. These sessions will provide owners and operators with an opportunity to obtain training directly from Weights and Measures staff on trending compliance issues.

This year's training topics are:

- What facilities need to know about the upcoming changes to ATCP 93
- Preparing for inspections: best practices
- 2020 sump upgrade requirements

Pre-registration is required for these training sessions. Please note attendance at this training is optional. This training is not A/B Operator training.
