

2024 Spongy Moth Slow the Spread Program:
Chart of Treatment Sites and Completion Dates

Wisconsin Department of Agriculture, Trade and Consumer Protection

Updated: 19-June-2024

- The 2024 Slow the Spread Program has planned treatments for 23 sites in the following nine counties: Barron, Buffalo, Chippewa, Crawford, Dunn, Grant, Iowa, Lafayette, and Rusk.
- Sites will be treated with one of the following organic products: *Bacillus thuringiensis var. kurstaki* (Btk) or Mating Disruptor (MD). Generally, Btk is applied in late spring, and MD treatments take place in early summer.
- Aerial treatments depend on good weather and proper flying conditions. Therefore, dates are usually determined on a day-to-day basis. Changes in schedule may occur due to weather, logistical or mechanical problems. The latest updates will be made available on the toll-free Spongy Moth Hotline at 1-800-642-MOTH (6684), option 1, and on social media through the [DATP Facebook](#) and [DATCP X \(Twitter\)](#) pages.
- Maps and more information are available on the websites <http://spongymoth.wi.gov> and <http://smaerialspray.wi.gov>.

Table 1. Wisconsin *Lymantria dispar* Btk[†] treatments sites for 2024. Blocks named by county.

Block name	County	Treatment	Dosage/ acre ^{††}	Applications	1 ST Scheduled Treatment Date	2 ND Scheduled Treatment Date	Treatment Acres
Barron1	Barron	Btk	24 CLU	2	05/23/2024	05/30/2024	327
Buffalo1	Buffalo	Btk	24 CLU	2	05/17/2024	05/23/2024	442
