Submitting Pesticide Labels to Wisconsin

The purpose of this document is to inform all licensees that WDATCP **does not accept paper or image copies** (scanned-in documents) of pesticide product labels.

Please submit each label as a text-searchable pdf document (no scanned copies), using the directions on the following page.

As a reminder, WDATCP requires submission of a pesticide label at the following times:

- 1) When applying for a new registration of each pesticide product to be sold or distributed in Wisconsin, including minimum risk (FIFRA Section 25b) pesticides exempt from federal registration.
- 2) When an amended label for each product sold or distributed in Wisconsin becomes available.

If you have any questions regarding label submission, please contact:
