In order to line or reline an underground tank system that has held or will hold flammable or combustible liquids which are regulated under [ATCP 93](#), you must meet one of the following requirements:

- Hold an Underground Tank System Liner certification issued by DATCP.
- Be under the direct supervision of a person who holds an Underground Tank System Liner certification issued by DATCP.

In addition to the required technician certification, companies performing or offering to perform this work must hold a Tank Specialty Firm Registration issued by DATCP. For additional information, please see our [Tank Specialty Firm fact sheet](#).

The certified underground tank system liner must be present at the job site for all of the following activities:

- Removal of product from the tanks and making the atmosphere of the tanks inert or vapor-free
- Cutting of openings in tanks
- Removal and handling of sludge and other wastes from tanks
- Sand blasting of the tank interior
- Inspection for holes and wall thickness
- Notifying the owner if an internal tank assessment determines that a tank system assessment under [ATCP 93](#) is required
- Repair of holes
- Notifying and arranging for a certified tank system inspector to visit the site and authorize the lining, prior to applying the lining to the tank
- Coating of tanks
- Testing for holidays
- Testing for coating hardness
- Resealing of tanks
- Completing an API 1631 inspection form B, as required by [ATCP 93](#), and submitting it to the owner, inspector and department of agriculture, trade and consumer protection

To initially obtain an Underground Tank System Liner Certification, you must:

- Submit the exam application along with the \$35 fee. A score of 70% is required to pass the exam.
- After passing the exam, submit the following items within 3 months of the date you are notified of your passing exam score:
 - o Underground Tank System Liner application
 - o \$20 application fee (not applicable to electronic applications or renewals)
 - o \$50 certification fee
 - o Social Security Number Request form

Underground Tank System Liner Certification Information

If you are a veteran, you may be eligible for a DVA voucher to cover the initial application and certification fees. Please contact the DVA at 1-800-WisVets or online at www.WisVets.com for more information.

An Underground Tank System Liner certification is valid for 2 years from the date issue. To renew, you must submit the Underground Tank System Liner application and \$50 fee prior to the expiration of your certification. Late applications are not accepted. If you do not submit your renewal prior to the expiration date, you must apply for a new certification.
