RE: STATE WIDE CONDITIONAL APPROVAL

Identification Numbers
Transaction ID No. 46717
Site ID No. STATE WIDE
Please refer to both identification numbers, above, in all correspondence with the agency.

FOR: Petition for Variance for VP110 Racing Gas

PETITION STATUS: **APPROVED** **DENIED**

The submittal described above has been reviewed for conformance with applicable Wisconsin Administrative Codes and Wisconsin Statutes. The submittal has been **CONDITIONALLY APPROVED**.

Variance Requested:

Variance to the required 10% distillation specification value for gasoline.

Petitioned Code Sections:

Wis. Admin. Code ATCP 94.210, ASTM D4814

Variance Analysis/Discussion:

This approval is granted based on the following considerations/assumptions:

- Failure to meet the required 10% distillation value is a known trait of racing gasoline.
- Racing fuels are leaded, and are not intended for on-road use or to meet common drivability standards.

Conditions for Approval:

VP Racing Fuels, Inc. is responsible for ensuring sellers of VP110 are provided with written documentation of the following conditions for approval. Dispensing facilities that fail to meet these requirements will be subject to shut down in accordance with Wis. Admin. Code ATCP 94.100(8)(e):

- The subject fuel shall be sold from a dispensing device that is located remote from the main fueling islands and dedicated to the subject fuel.
- In accordance with ATCP 94.300, information labels shall be placed on both sides of the dispensing device. No label may be placed so that the text is sideways or upside down. Labels shall be a contrasting color to that of the dispensing device. The letters on the labels shall be at least ½ inch in height.
- The information label shall include the following information:
 - The language: “Racing gasoline - leaded. For off road use only. Does not meet automotive gasoline specifications.”
 - An FTC compliant octane rating label (R+M)/2
 - Any applicable oxygenates shall be identified per ATCP 94.300

Conditionally approved petitions may be subject to revocation if it is determined that the information originally submitted for approval does not accurately reflect the proposed tanks, piping, site or operation.

Appeals must be submitted in accordance with Wis. Admin. Code ATCP 1.06.

Inquiries concerning this correspondence may be made to me at the telephone number, or at the address listed below.

This correspondence serves as your receipt for fees received as of the date of this letter. Please reference the Transaction ID No. when contacting this office.
