

## SECTION 2.2

### COST-SHARE FUNDING SOURCE TABLE AND NR 151 CODING

The following will help you in completing cost-share contracts and submitting reimbursement requests. It consists of the following parts:

- (1) [A reference table](#) listing all conservation practices cost-shareable under Ch. ATCP 50, the source of funds you must use for cost-sharing the specific practices, the units of measurement to quantify each cost-shared practice, and the associated supporting documentation,
- (2) Guidance for completing the column on the reimbursement form related to the [NR 151 compliance](#),
- (3) [Flat Rate Practice Amounts](#), and
- (4) Notes on [requesting reimbursement](#) and levying county fees

<b>COST-SHARE PRACTICE/FUNDING SOURCE TABLE</b>				
<b>PRACTICE or ACTIVITY</b>	<b>ATCP 50 Reference</b>	<b>Funding Source</b>	<b>Units of Measurement</b>	<b>Reimbursement Documentation Required</b>
Land taken out of agricultural production	50.08(3)	Structural	Acres	Cost-share contract must list the new or existing farm practice that takes land out of production
Riparian land taken out of agricultural production (CREP Equivalent)	50.08(4), 50.42(1)	Structural	Acres	Cost-share contract must list the new or existing farm practice that takes land out of production
Manure storage systems	50.62	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent And Nutrient Management Checklist
Manure storage closure	50.63	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent And Nutrient Management Checklist
Barnyard runoff control systems (specify components including heavy use area protection)	50.64	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Access road	50.65	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Trails and walkways	50.66	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Conservation cover	50.663	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Conservation crop rotation	50.668	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Contour farming	50.67	SEG <sup>1</sup>	Acres	Nutrient Management Checklist

<sup>1</sup> Refer to footnote on page 4

**COST-SHARE PRACTICE/FUNDING SOURCE TABLE**

<b>PRACTICE or ACTIVITY</b>	<b>ATCP 50 Reference</b>	<b>Funding Source</b>	<b>Units of Measurement</b>	<b>Reimbursement Documentation Required</b>
Cover crop – single species + termination	50.68(1)	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Cover crop – single species	50.68(2)	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Cover crop – multi-species	50.68(3)	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Critical area stabilization	50.69	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Diversions	50.70	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Feed storage runoff control systems	50.705	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Field windbreaks	50.71	Structural	Linear Ft.	County certification on reimbursement form
Filter strips	50.72	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent
Grade stabilization structures	50.73	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Habitat diversification	50.733	SEG <sup>1</sup>	Acres	Approved Construction Plan Cover Sheet or Equivalent
Harvestable buffers	50.738	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Hydrologic restoration	50.74	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent
Livestock fencing	50.75	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent and County certification of non-engineered practice on reimbursement form
Livestock watering facilities	50.76	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent and County certification of non-engineered practice on reimbursement form
Milking center waste control systems	50.77	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Nutrient management for cropland or pasture	50.78(1)	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Nutrient management for Silurian	50.78(2)	SEG	Acres	Nutrient Management Checklist
Nutrient treatment systems	50.785	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Pesticide management	50.79	Structural	Number	Pesticide Management Plan

**COST-SHARE PRACTICE/FUNDING SOURCE TABLE**

<b>PRACTICE or ACTIVITY</b>	<b>ATCP 50 Reference</b>	<b>Funding Source</b>	<b>Units of Measurement</b>	<b>Reimbursement Documentation Required</b>
Prescribed grazing	50.80			
1. Management plan	50.80(1)	No Funds Available	Number	
2. Fencing (not permanent)	50.80(2)	No Funds Available	Linear Ft.	
3. Fencing (permanent)	50.80(3)	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent and County certification of non-engineered practice on reimbursement form
4. Establish permanent pasture (seeding)	50.80(4)	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent and County certification of non-engineered practice on reimbursement form
Relocating or abandoning animal feeding operations	50.81	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Residue management	50.82	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Riparian buffers	50.83	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent
Roofs	50.84	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Roof runoff systems	50.85	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Sediment basins	50.86	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Sinkhole treatment	50.87	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Stream bank and shoreline protection	50.88	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Stream restorations	50.882	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Stream Crossing	50.885	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Strip-cropping	50.89	SEG <sup>1</sup>	Acres	Nutrient Management Checklist
Subsurface drains	50.90	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Terrace systems	50.91	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Underground outlet	50.92	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent

**COST-SHARE PRACTICE/FUNDING SOURCE TABLE**

<b>PRACTICE or ACTIVITY</b>	<b>ATCP 50 Reference</b>	<b>Funding Source</b>	<b>Units of Measurement</b>	<b>Reimbursement Documentation Required</b>
Verification depth to bedrock	50.925	No Funds Available	Number	<ul style="list-style-type: none"> <li>• Field data reporting form</li> <li>• Geophysical map (if applicable)</li> <li>• Borehole/well abandonment form (DNR)</li> <li>• Tabulated data with lat/long info for sampling locations</li> <li>• Field maps</li> </ul>
Waste transfer systems	50.93	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Wastewater treatment strips	50.94	Structural	Linear Ft.	Approved Construction Plan Cover Sheet or Equivalent
Water and sediment control basins	50.95	Structural	Number	Approved Construction Plan Cover Sheet or Equivalent
Waterway systems	50.96	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent
Well decommissioning	50.97	Structural	Number	Well/Drillhole/Borehole Filling & Sealing Report (DNR Form 3300-005)
Wetland restoration	50.98	Structural	Acres	Approved Construction Plan Cover Sheet or Equivalent
Engineering services provided in connection with a completed cost-share practice for which Structural revenue may be used (also refer to 50.40(7)).	50.34(4)	Structural		Approved Construction Plan Cover Sheet or Equivalent
Other practices with DATCP's written approval	50.40(3)(a)			Varied, defined upon approval
Recording Fee	50.14	Structural - same as contract		Recorded contract

<sup>1</sup> For landowners with approved Nutrient Management Plans who agree to remain in compliance with the soil erosion control standard (NR 151.02) and the nutrient management standard (NR 151.07) for as long as the land is farmed.

**Practices in Green can use SEG funds with preapproval from DATCP.**

**See: [2.15 Utilizing SEG funds for Structural Practice Funding Guidance](#) for further information on the preapproval process.**

## **Guidance for Completing NR 151 Codes on DATCP Certification and Cost-share Reimbursement Request Form**

A completed form must indicate whether the reimbursement request involves practices installed to achieve compliance with NR 151 performance standards and prohibitions. Not all practices are installed for the purpose of achieving compliance with NR 151 (see below for examples). If no compliance is achieved, the “00” code should be used on the form. Where compliance is achieved, staff completing the form should use their professional judgment to identify the specific NR 151 standard or prohibition that was met, and then insert the code number that corresponds to that NR 151 standard or prohibition (the code numbers in the form match the sections in NR 151 where the standard or prohibition are referenced). The following chart can help you complete this part of the form.

<b><u>NR 151 Code</u></b>	<b><u>Compliance Achieved through Practice Installation</u></b>
02	Control soil erosion (sheet, rill and wind) to meet tolerable soil loss (T) calculated by RUSLE 2 (now includes pastures)
03	Tillage setback of 5 to 20 feet
04	Phosphorous Index
05	Construct, maintain and close manure storage facilities to prevent manure overflows and leaks.
055	Process wastewater discharge to waters of the State
06	Divert clean water from feedlots, manure storage areas and barnyard areas within a water quality management area.
07	Apply manure and fertilizer in conformance with a nutrient management plan to control nutrient runoff into waters of the State.
08	No overflow from manure storage facilities.
08	No unconfined manure stacks within the Water Quality Management Area.
08	No direct runoff from feedlots and manure storage facilities.
08	No unlimited access of livestock to waters of the state that prevents maintenance of adequate sod or self-sustaining cover.

### **Guidance on Compliance Determinations involving Specific Practices**

To receive 70% cost-sharing, the practices listed below must be associated with a NR 151 performance standard. If a NR 151 performance standard code is not assigned to the practice, then the project will only receive funding at a 50% cost-share rate. This table lists possible codes that might be associated with a particular practice to receive the higher cost-share rate.

<b>Practice</b>	<b>NR 151 Code Options</b>
Access Roads (50.65)	05, 08
Conservation cover (50.663)	01, 02
Habitat diversification (50.733)	01, 02
Roof Runoff Systems (50.85)	05, 055, 06, 08
Stream Bank and Shoreline Protection (50.88)	03, 08
Stream Crossing (50.885)	02, 03, 08
Wetland Restoration (50.98)	02, 07

## **Flat Rate Practices**

<b>ATCP 50 Code</b>	<b>Practice</b>	<b>Rate</b>
50.668	Conservation crop rotation	\$10/acre/year
50.67	Contour farming	\$9/acre/year
50.68(1)	Cover crops – single species + termination	\$60/acre/year
50.68(2)	Cover crops – single species	\$35/acre/year
50.68(3)	Cover crops – multi species	\$75/acre/year
50.738	Harvestable buffers	Annual per acre based on county soil rental rate
50.78(1)	Nutrient management	\$10/acre/year for 4 years
50.78(2)	Nutrient management Silurian	\$5/acre/year for 1 year
50.82	Residue management (no-till, strip till)	\$18.50/acre/year
50.89	Strip cropping	\$13.50/acre/year

### **Requesting Reimbursement:**

For each cost-share contract, a single PDF packet of the 1) reimbursement request form, 2) supporting documentation (e.g., approved construction plan cover sheet or equivalent, nutrient management checklist), 3) contract (recorded if over \$14,000 cost-share), and 4) associated change orders shall be submitted to your SWRM Program Manager ([datcpswrm@wisconsin.gov](mailto:datcpswrm@wisconsin.gov))

### **Technical Certification**

**Engineering Practices:** all practices requiring a construction plan cover sheet

**Well Construction/Decommissioning:** 50.97 Well decommissioning, 50.76 Livestock watering facilities

**Nutrient Management Planning:** 50.78 Nutrient Management

**Non-engineered and Multi-year Cropping Practices:** 50.89 Stripcropping, 50.68(1)(2)(3) Cover crops, 50.67 Contour farming, 50.82 Residue management, 50.80 Grazing, 50.69 Critical area stabilization, 50.71 Field windbreaks, 50.75 Livestock fencing, and 50.83 Riparian buffer

### **A note about fees charged by the county:**

ATCP 50 does not prohibit counties from levying fees and there may be practical needs at the county level to do so. However, county fees are not considered a necessary cost to install and maintain practices eligible for cost sharing and are not billable to DATCP or eligible for reimbursement as part of the agreement with the landowner and/or grant recipient. Cost sharing and subsequent continuing compliance agreements are entered into based on the maximum rates and cost share percentages outlined in this document and ATCP 50. Any county approved fees levied must meet the requirements of s.66.0628 Stats. and are payable directly to the county from the landowner and/or grant recipient outside of the cost share contract and agreements.
