

Fertilizer Summary Report:  
License Year Oct. 1, 2022 to Sept. 30, 2023  
Fertilizer tonnage distributed July 2022 to July 2023

Licensed fertilizer businesses annually report tonnage and pay the fee on Sept. 30, at the end of the fertilizer business license cycle. Tonnage is reported for distributions between July 1 and June 30. Tonnage is reported for both agricultural (e.g. corn, soybeans) and non-agricultural fertilizers (e.g. golf, lawn care, ornamentals). The tonnage report form allows businesses to submit data under UFTRS codes or as mixed grades. Tonnage reports only indicates a volume of fertilizer was distributed into Wisconsin from a manufacturer. The report does not require identifying how or if the fertilizer was applied. Tonnage reports are confidential as per s. [94.64\(6m\) Wis. Stats.](#)

The commercial fertilizer tonnage report form is available at: [DATCP Home Commercial Fertilizer Dealers.](#)

<b>TOTAL Fertilizer Reported July 2022 to June 2023</b>	<b>2,318,906 Tons</b>
Tonnage Reported As	
Mixed Grade	490,298
UFTRS Code	1,622,272
Secondary & Micro-Nutrients (UFTRS and Mixed Grades)	103,010
Natural & Organic	68,361
Fillers	54,369
Agricultural Fertilizers	400,707
Non-Agricultural Fertilizers	10,864
Not Reported as Agricultural or Non-Agricultural	1,828,247
