

2022 Owner / Operator Fueling Facility Compliance Training

The Wisconsin Department of Agriculture, Trade and Consumer Protection's Bureau of Weights and Measures is conducting fueling facility compliance training at no cost to owners and operators. These sessions will provide owners and operators with an opportunity to obtain training directly from Weights and Measures staff on trending compliance issues such as most common violations found during inspections, sump and spill bucket testing requirements, and achieving compliance with leak detection requirements.

Please note:

- Pre-registration is required for these training sessions.
- There is no fee to attend these training sessions.
- All training sessions will be the same.
- Attendance is optional.
- This training is ***not*** A/B Operator training.

To register, email this completed form to Natalie.Leibovitz@wisconsin.gov or mail to:
