

Continuing Education Training for AST/UST Installers

The Bureau of Weights and Measures is offering continuing education training for Aboveground Tank System Installers and Underground Tank System Installers. This training will be held via Zoom. Credentialed installers can earn a total of 6 continuing education credits for attending one of the training sessions listed below. Each training session is the same. Attendees must be present for the entire training to earn credits. This training is open to individuals that do not hold an AST or UST Installer Certifications.

Pre-registration is required for this training. To register please send this completed registration form to Kevin Meyers at kevin.meyers@wisconsin.gov. The link for the Zoom training will be emailed to each attendee prior to the training session.
