Proposed Lodging Fee Structure

James Kaplanek – DFRS - BFRB

DEPARTMENT OF AGRICULTURE, TRADE, AND CONSUMER PROTECTION 6/25/2024

BACKGROUND

- Lodging fees have not been addressed since 2008, with a 5% increase in 2010.
- 16 years, fees have remained at the current rate.
- Program costs have dramatically increased and the gap between expenses and program revenue is increasing.
- The program cannot continue to operate effectively with the current fee structure.

shutterstock.com · 207849163

METHODOLOGY

- Total Expenses for Retail and Recreational Programs:
 - % Central Office Staff cost to support program needs-agent reimbursement.
 - Field staff cost.
 - Supplies and services
 - HealthSpace.
 - Laboratory Costs
- Calculations
 - Average time to perform a type of inspection is calculated multiplied by the total number of
 establishments of that type. Total number of hours spent performing all inspections divided by the
 hours of lodging inspections=% of inspection hours dedicated to lodging inspections.

METHODOLOGY

Calculations

- The calculated percentage is applied to the total expenses needed to run the retail and recreational program.
- That number is the basis for calculating the fee structure.
- Three different models are proposed for consideration.
- Other ideas can be presented, but at the end of the day the total revenue generated needs to offset the expenses to run the lodging program.
