

# Practice Good Biosecurity

## Protect yourself and your cattle

### HPAI Cases

Highly Pathogenic Avian Influenza (H5N1) has been confirmed in dairy herds in multiple states. The Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) is working with federal and state partners to safeguard our state.

### Take Action

- Continue to practice and strengthen biosecurity practices
- Minimize animal movements
- Isolate new additions to the herd
- Work with herd veterinarians if noticing unusual clinical signs in cattle

### Learn More

Further information on biosecurity practices can be found on the [DATCP: Basic Biosecurity webpage](#) and [SecureMilkSupply.org](#).

Learn more about HPAI (H5N1) at [datcp.wi.gov](http://datcp.wi.gov).

### Report Herds

To report herds with unexplained symptoms, veterinarians should contact DATCP at (608) 224-4872 (business hours) or (800) 943-0003 (after hours and weekends)
