

Nutrient Management Update Webinar

Monday, March 6th

10 am-12 pm

Join us for the 2023 Nutrient Management Update Webinar to hear from DATCP, NRCS and NPM staff on all things nutrient management.

DATCP staff will be sharing reported 2022 nutrient management numbers, NRCS staff will be sharing nutrient management related updates within NRCS, and NPM will be discussing targeted educational initiatives to address the stagnating cropland acres covered by nutrient management plans. Lastly, we will be sharing tips and tricks when writing nutrient management plans in the SnapPlus software.
