

INCORPORATING OFF FARM WASTE

IN NUTRIENT MANAGEMENT PLANNING

Learn from DATCP, DNR, and UW Extension staff about accounting for off-farm wastewater in nutrient management plans. The first session will cover DNR rules for wastewater and is geared toward land conservation staff. The second session focuses on Wisconsin NMPs and the differences in rules for WPDES permittees and licensed septage businesses.

Upcoming Webinars:

- ✓ **Off Farm Wastewater Products: DNR Rules and Land Application Requirements**
April 28 from 10 a.m.-11:30 a.m.
- ✓ **Nutrient Management Planning and Incorporating Off Farm Wastewater Products**
July 21 from 10 a.m.-11:30 a.m.
