

HAVE YOU SEEN SPOTTED LANTERNFLY?

EGG MASSES
SEPT.-JUNE

EARLY NYMPH
APRIL-JULY

LATE NYMPH
JULY-SEPT.

ADULT
JULY-DEC.

This invasive insect feeds on the branches and stems of a wide range of plants, including grape, apple, hops, maple, willow, birch, walnut, and invasive tree-of-heaven. It may hitch a ride to Wisconsin on vehicles, nursery plants, shipping materials, and firewood.

**IF FOUND IN WISCONSIN,
