

Pesticide Products

Definitions

H = **household pesticide** means a pesticide that is any of the following:

1. A sanitizer.
2. A disinfectant.
3. A germicide.
4. An insect repellent that is applied to the human body or to clothing.
5. A pesticide that is used exclusively for the treatment of household pets.
6. A pesticide product that is labeled exclusively for household, lawn or garden use if the product is sold in ready- to-use form or is sold exclusively in container sizes of less than one gallon.
7. A solid or liquid pesticide product that is used exclusively for the treatment of swimming pools, spas or hot tubs.

I = **industrial pesticide** means a pesticide that is not a household pesticide and that is one of the following:

1. Solely labeled for use on wood (i.e. wood preservatives).
2. Labeled for use in controlling algae, fungi, bacteria, other microscopic organisms or mollusks in or on one or more of the following and for no other use except for a use described under Household Pesticide (number 6 or number 7).
 - a. Textiles, paper, leather, plastic, vinyl or other synthetic materials, metal or rubber.
 - b. Paints, varnishes, other coating products, lubricants or fuels.
 - c. Commercial, construction, manufacturing or industrial fluids, including adhesives, additives and pigments.
 - d. Commercial, construction, manufacturing or industrial processes, equipment, devices or containers, other than those used in the production or storage of human food or animal feed.

e. Air washing, cooling or heat transfer systems.

f. Medical equipment.

g. Drinking water or wastewater systems.

N = **nonhousehold pesticide** means a pesticide that is not a household, or industrial pesticide.

Note:

If all containers of a given pesticide are labeled with the same brand name, EPA registration number and labeler name; the pesticide is considered a single pesticide product. If container labels bear different brand name, OR EPA registration number, OR labeler name, the pesticide is not considered the same pesticide product and additional license fees are required for each labeled product.

If you distribute a pesticide product into Wisconsin that is not included in your product listing, you must notify the Department at least 15 days prior to distribution or you will be subject to a license fee surcharge of the same amount as the license fee due, in addition to the required license fee per product [Wis. Stat. § 94.681(5)].

Fees and Surcharges Nonrefundable

The department may not refund a fee or surcharge under this section after the department issues a license to the person who paid the fee or surcharge, unless the fee or surcharge was not properly charged or collected [Wis. Stat. § 94.681(8)].
