

2022 Spongy Moth Slow the Spread Program:

Chart of Treatment Sites and Completion Dates

Wisconsin Department of Agriculture, Trade and Consumer Protection

Updated: 20-July-2022

2022 Spongy Moth Treatments Are Now Complete

- The 2022 Slow the Spread program has planned treatments for 57 sites in the following 17 counties: Barron, Bayfield, Buffalo, Burnett, Chippewa, Crawford, Dunn, Eau Claire, Grant, La Crosse, Lafayette, Pepin, Rusk, Sawyer, Trempealeau, Vernon, and Washburn.
- Aerial treatments depend on good weather and proper flying conditions. Therefore, dates are usually determined on a day-to-day basis. Any dates that are changed are due to weather, logistical or mechanical problems. The latest updates are available on the toll-free hotline 1-800-642-MOTH (6684), option 1.
- Sites will be treated with one of the following products: *Bacillus thuringiensis* var. *kurstaki* (Btk) or an organic Mating Disruption (MD). Generally, Btk is applied in late spring, and MD treatments take place in early summer. Btk treatments are now complete.
- Maps and more information are available on the website <http://spongymoth.wi.gov>, <http://smaerialspray.wi.gov> or e-mail spongymoth@wisconsin.gov.

Block name	County	Treatment	Dosage	Applications	Scheduled Treatment Date		Treatment Acres
					1 ST Application	2 ND Application	
Buffalo1	Buffalo	Btk	24 CLU	1	5/23/2022	N/A	493
Chippewa1	Chippewa	Btk	24 CLU	1	5/27/2022	N/A	424
