

About the Program:

- * Available at no-cost to approved participants
- * Administered by a licensed veterinarian
- * Makes investigative farm visits
- * Works collaboratively with farm's local management team
- * Coordinates diagnostic or laboratory testing
- * Delivers final report of findings and recommendations

Troubleshoots concerns such as:

- * Milk production and quality
- * Diagnosing and managing disease
- * Unexplained illness or death
- * Stray voltage
- * Water intake
- * Calf and heifer management
- * Other herd health issues

The Herd-Based Diagnostics Program is funded by assessments and fees administered in partnership with the Public Service Commission to Wisconsin's privately and cooperatively held public utility companies. The Herd-Based Diagnostics Program provides veterinary consulting and diagnostic testing services to Wisconsin dairy farmers, including issues related to stray voltage.

Herd-Based Diagnostics Program

Have herd health concerns?
We can help!

The Wisconsin Farm Center's Herd-Based Diagnostics Program provides confidential, no-cost veterinary consulting to Wisconsin dairy farmers.

Wisconsin Farm Center
Phone: 800-942-2474
Email: farmcenter@wi.gov

How it works:

1 Farmer requests application by contacting Wisconsin Farm Center

2 Farmer returns completed application

3 Initial consultation with veterinarian

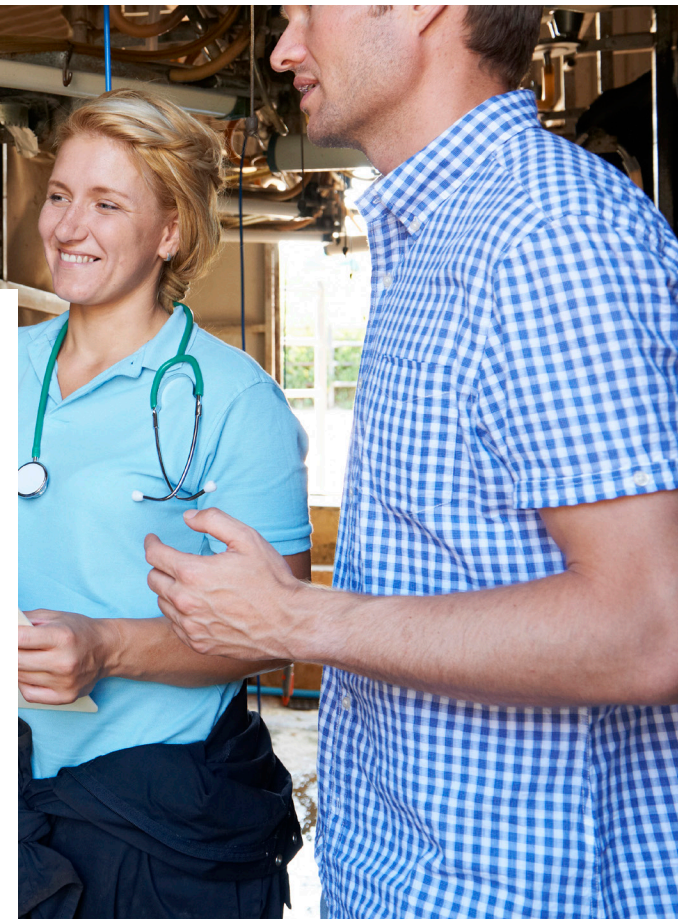

4 Farm visit(s) to collect data and take necessary samples

5 Analyze farm data and lab testing results

6 Delivery of final report
